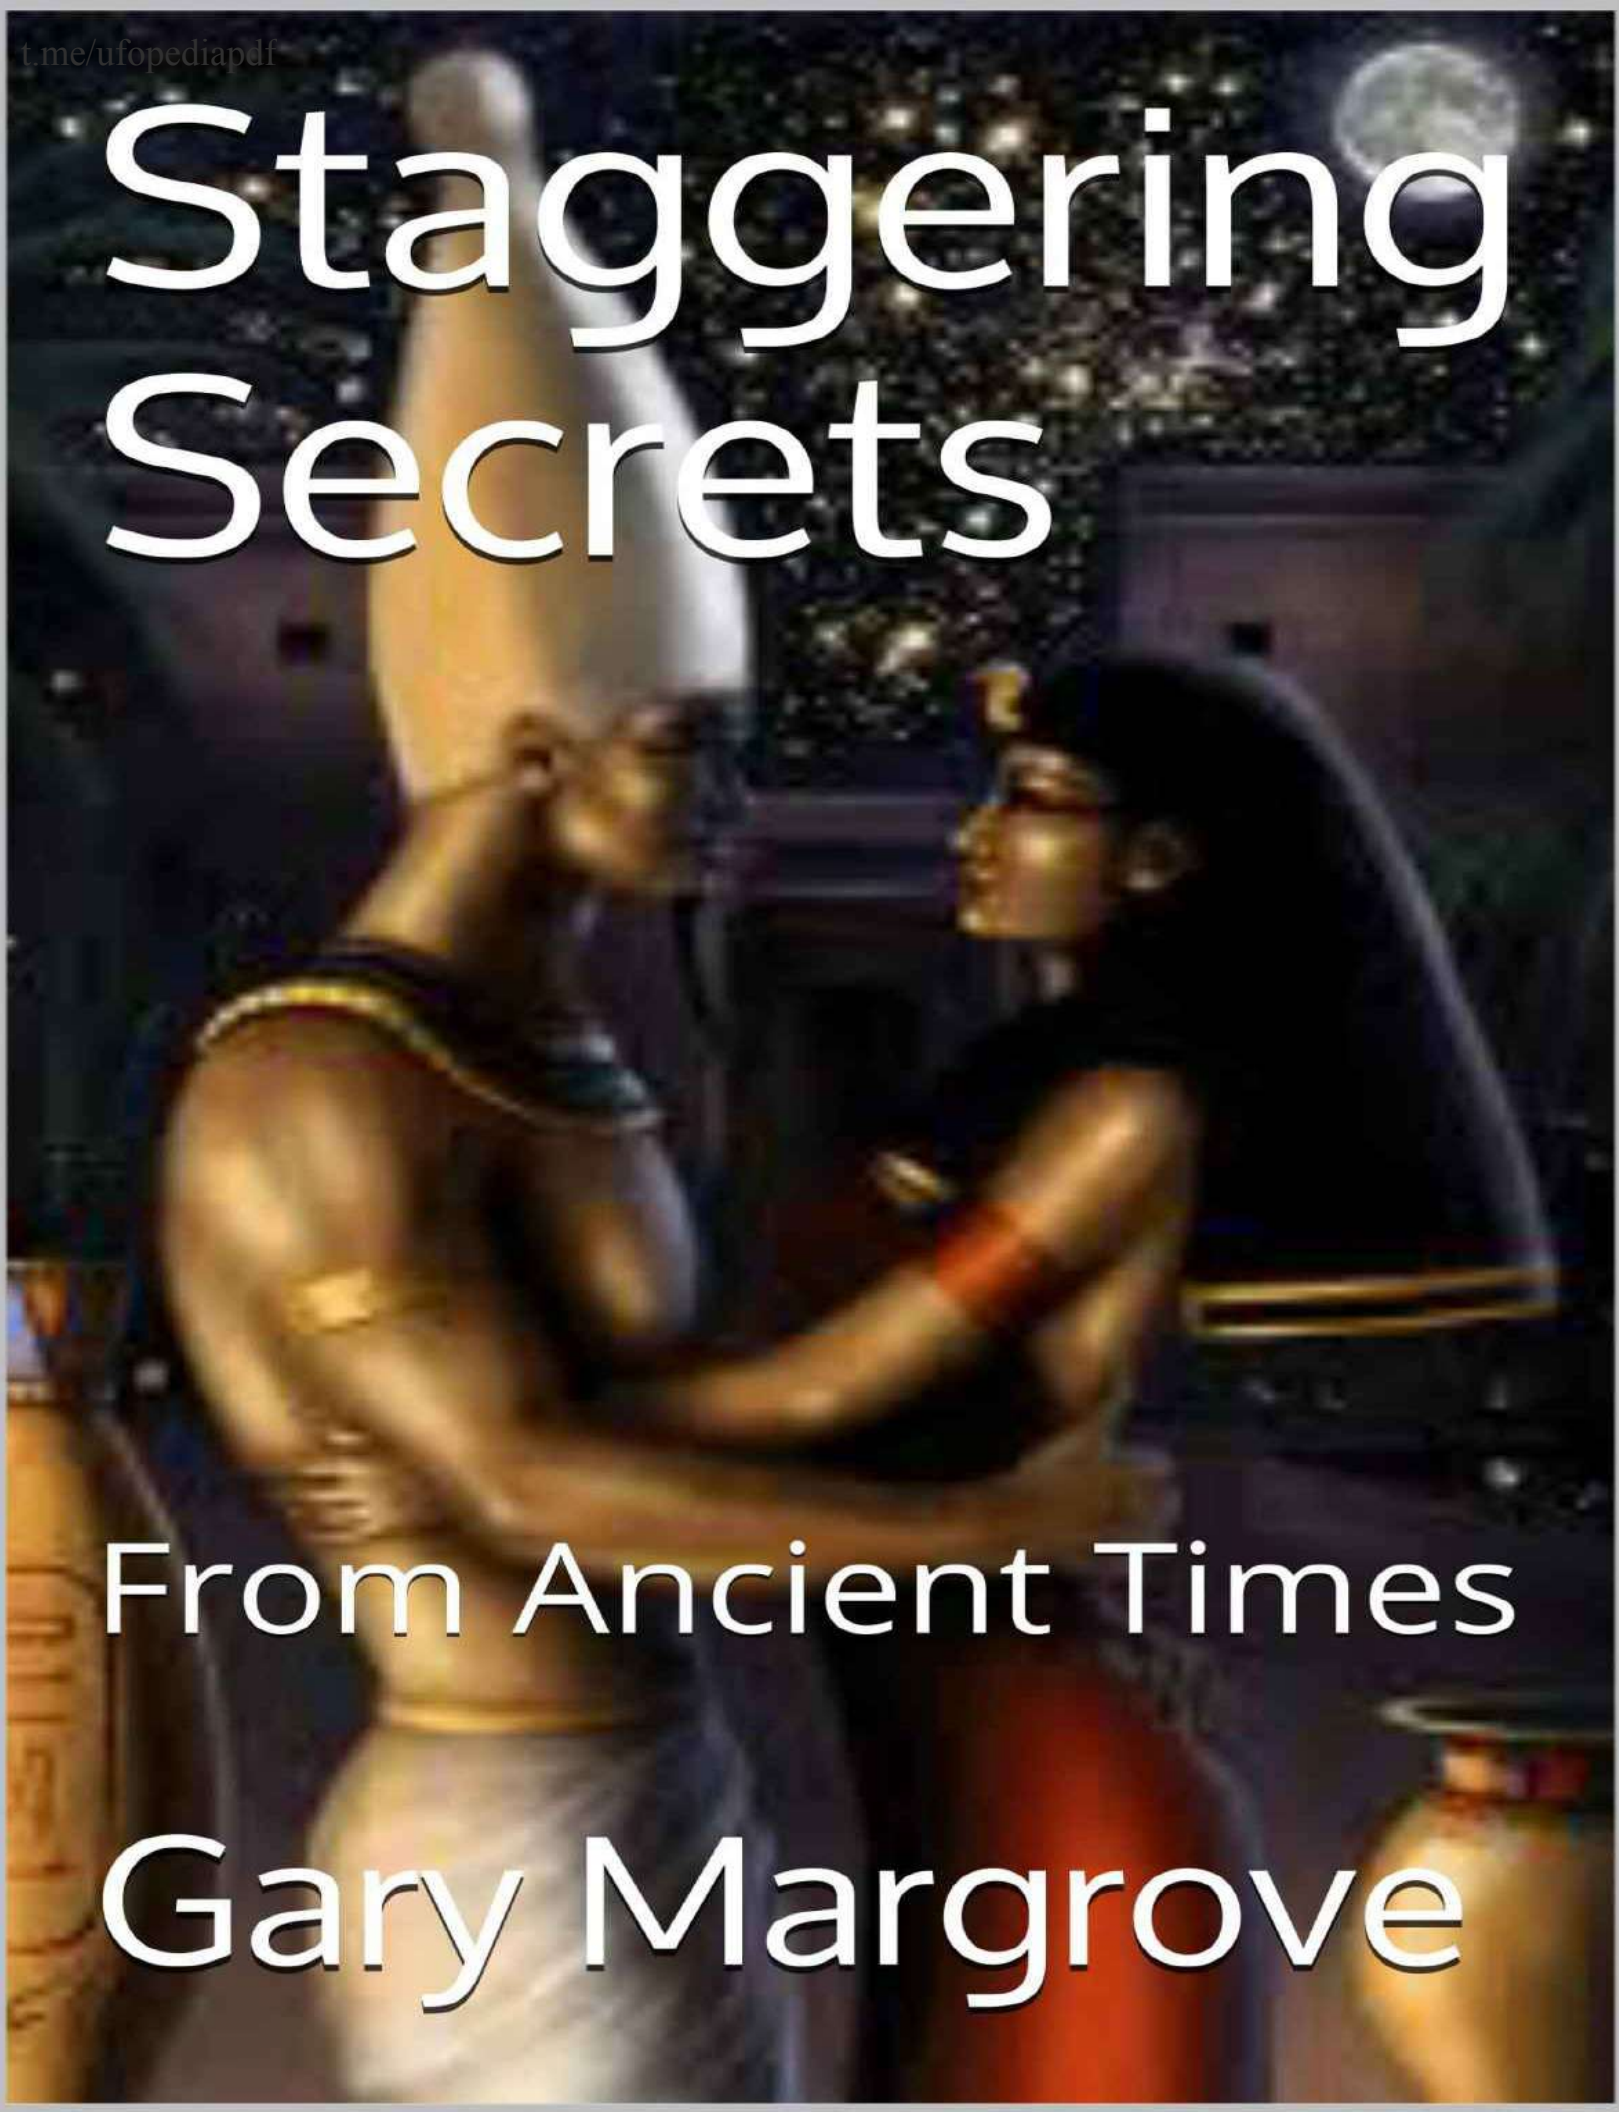
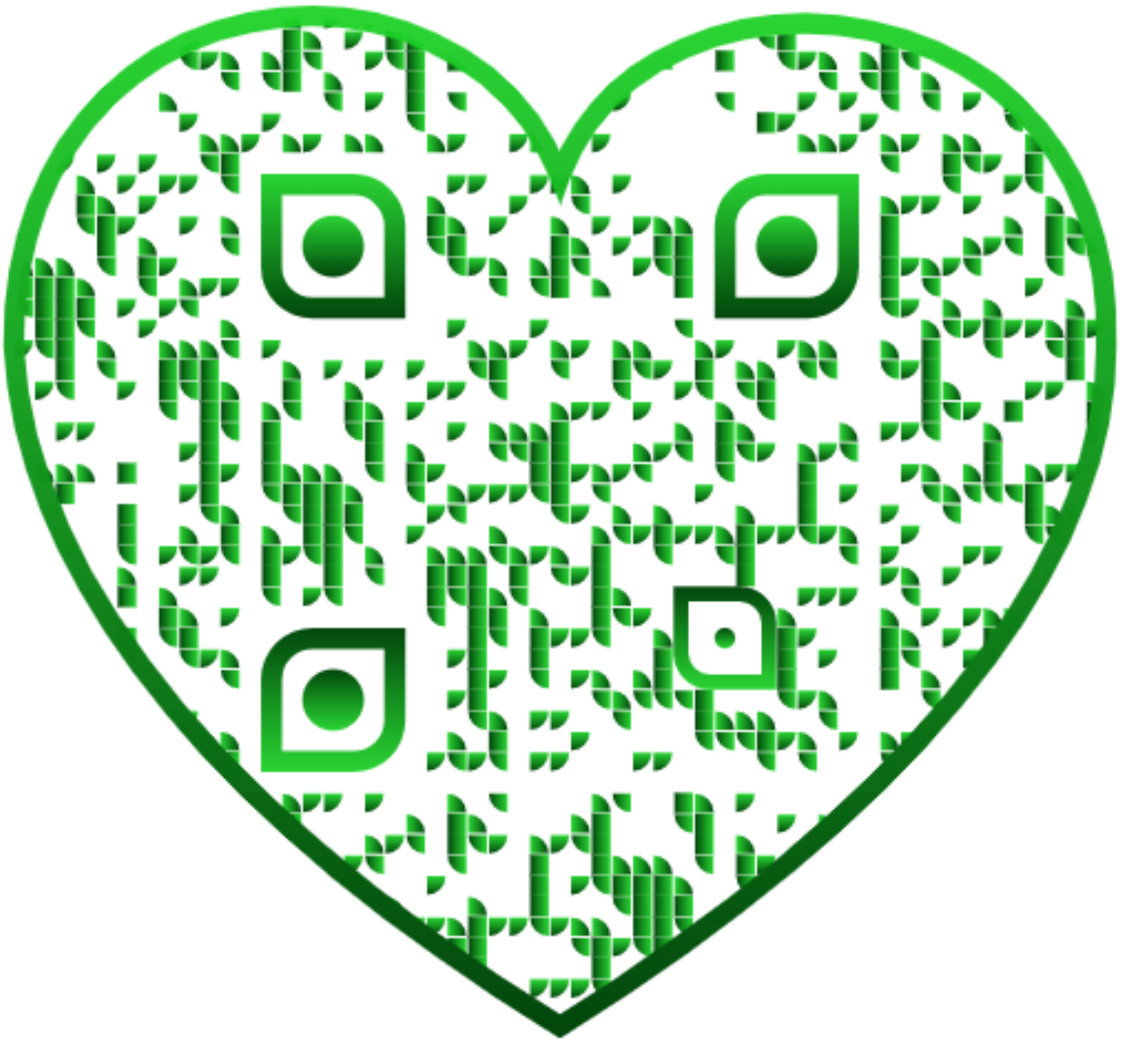
Staggering Secrets



From Ancient Times

Gary Margrove



t.me/ufopediapdf

Nothing New Under the Sun

Although the evidence is long gone, buried under volcanic ash and the effects of nuclear devastation a highly spiritual advanced species travelled the Earth and strode through the skies many millions of years ago.

They built enormous edifices of gold, inlaid with precious stones. They dwelt in cities in the clouds and they explored the far reaches of our galaxy.

Gradually through greed and selfishness the great civilizations of the past rotted from within. Almost 100,000 years ago they waged nuclear wars that completely devastated once proud societies. So began the Dark Ages that we find ourselves in today.

t.me/ufopediapdf

On the same day that Krishna departed from the Earth the powerful dark-bodied Kali Age descended. The ocean rose and submerged the whole of Dwarka –

Vishnu Purana

Despite the assertions of early archaeology, formalised religion and

t.me/ufopediapdf

Darwinism there is now growing support for the concept that mankind has not evolved but rather devolved to the primitive missile-wielding savages that rule our nations today.

There were spiritually advanced civilisations in our dim past. They included Atlantis (read my book **Continent of Atlantis**) and Lemuria. Civilisations such as the Sumerian and Egyptian were 'kickstarted' by refugees from these lost continents. What of the ancient meso and South American civilisations? Were they granted knowledge by the gods as they claim?

Historians teach us that originating as primitive apes we slowly evolved over hundreds of thousands of years. First we grunted, then we threw rocks at animals to stun them, then sharpened our flint tools to cut open our next meal. One day man (note never woman) discovered fire. From then on we had a cooked meal. It allegedly took aeons to accidentally invent language, the wheel and the taming of wild animals. Most people accept everything they are

t.me/ufopediapdf

taught as if it was fact. I hope for you this is not sufficient.

Would it surprise you to know that intelligent humans walked our planet millions of years ago? Are we able to prove this hypothesis?

Around 5000 B.C. in the Fertile Crescent a civilisation ‘suddenly appeared’ that displayed ‘instantaneous knowledge’ of building, agriculture, mathematics, astronomy and more. They were known as the black headed people. They called themselves Sumerians.

t.me/ufopediapdf

Archaeologists, historians and scientists omit the important fact that the ‘first’cities seemed to spring up from nowhere. Furthermore, the Sumerians irrigated the Euphrates, planted hundreds of miles of crops, reared animals and gazed with telescopes at the stars. Their homes had running water, sanitation, electricity and bathing facilities. Meanwhile throughout the Western world we were still ‘apes’. How did the people who lived near the

t.me/ufopediapdf

Persian Gulf suddenly display such amazing technological prowess?

They built skyscraper-like structures known as Ziggurat. The Sumerian people spoke daily to giant gods who lived in these Ziggurat. It was their gods that provided them with their amazing technology. The gods themselves flew around the planet in what are described in the Bhagavad Gita as Vimana.

t.me/ufopediapdf

"They were propelled by air and inside is placed a mercury engine with an iron heating apparatus beneath. By means of the power latent in the mercury sets the driving whirlwind in motion.

Four strong mercury containers must be built into the interior structure. When these have been heated, by controlled fire from iron containers, the Vimana develops thunder-power through the mercury. And at once it becomes a pearl in the sky. If the iron engine with the properly welded joints be filled with mercury and fire conducted into the upper part, it develops the power with the roar of the lion. A man sitting inside may travel a great distance in the sky in a most marvellous manner. Similarly by using the prescribed processes one can build a Vimana as large as the temple."

t.me/ufopediapdf

The leaders of these gods were the family of Anu. They were known as the Anunnaki (read **Arrival of the Anunnaki** by Gary G Margrove).

t.me/ufopediapdf

In this book I shall meticulously prove to you that our forebears were more knowledgeable than we are today. They were taught ancient knowledge by their ‘gods’. A chosen few were granted technology far beyond any possessed by modern day scientists. They became the Priests. This secret knowledge passed into occult circles we know today as the Freemasons and the Illuminati.

Anunnaki scientists (specifically the gods Enki and Ninhursag) were proficient in the science of genetics. They actually took humans from deepest Africa and altered their DNA to form a hybridised human/Anunnaki. (For full information please read my many books on the gods that ruled Earth for over 430000 years).

It is only very recently that our scientists have coined the term epigenetics. This means that genes respond to the environment in a miraculous manner. Place them in a healthy environment they thrive. Lock the genes into a destructive environment and serious long-term damage is the result. This principle applies to humans,

t.me/ufopediapdf

plants and animals and is paramount in terrifying environments such as Gaza.

Fear is the greatest limiting factor and the Illuminati elite employ mind control and fear tactics. Their intended outcome is to rule the planet by guile and deception. They are a tiny minority but have enlisted greedy and stupid humans to perpetuate their plan. For full details read my books including **Prison Planet Earth** and **They Sold Their Souls to the Devil.**

t.me/ufopediapdf

The ‘gods’ had no intention of sharing this knowledge with common people. When certain cataclysms (such as the Great Flood or a giant comet) struck the planet valuable technology was destroyed and, more vitally at this time, valuable knowledge was lost.

The ‘gods’ themselves exited Earth in their vimana ca 10500 BC until the crisis was over. When they returned they rebuilt their

t.me/ufopediapdf

Ziggurat and once again shared their knowledge with a select few. The select few were demigod hybrids. The secrets were jealously guarded by priests and viziers.

Today we are ruled by the descendents of these hybrids. Every US President in recent times has Anunnaki blood running through their veins. Have you ever stopped to think why we were (and in the case of the UK still are) ruled over by an elite family? They claim the ‘Divine right’ to rule. Who said so? Their forefathers Enlil and Anu.

t.me/ufopediapdf

There were wars in those days, not just with spear and sword but nuclear wars. These wars were fought using fleets of Vimana. They were so intense that the victor would completely annihilate the advanced civilisation of their enemy. Until recently it would be impossible to imagine the destruction that would be incurred by the dropping of just one nuclear bomb. Yet now space itself teems with the 'Star Wars' weapons initiated by Ronald Regan. Vast tracts of fused 'green glass' in our deserts are testimony to the maniacal stupidity of those who lived before us. They are remnants of

t.me/ufopediapdf

ancient nuclear wars that created devastation and deserts.

Quote from

http://www.messagetoeagle.com/nuclearwarsgods.php#.VNXAnOa

3rd June 2014

In 1952 archaeologists conducting excavations in Israel discovered a layer of fused green glass. The layer was a quarter of an inch thick and covered an area of several hundred square feet.

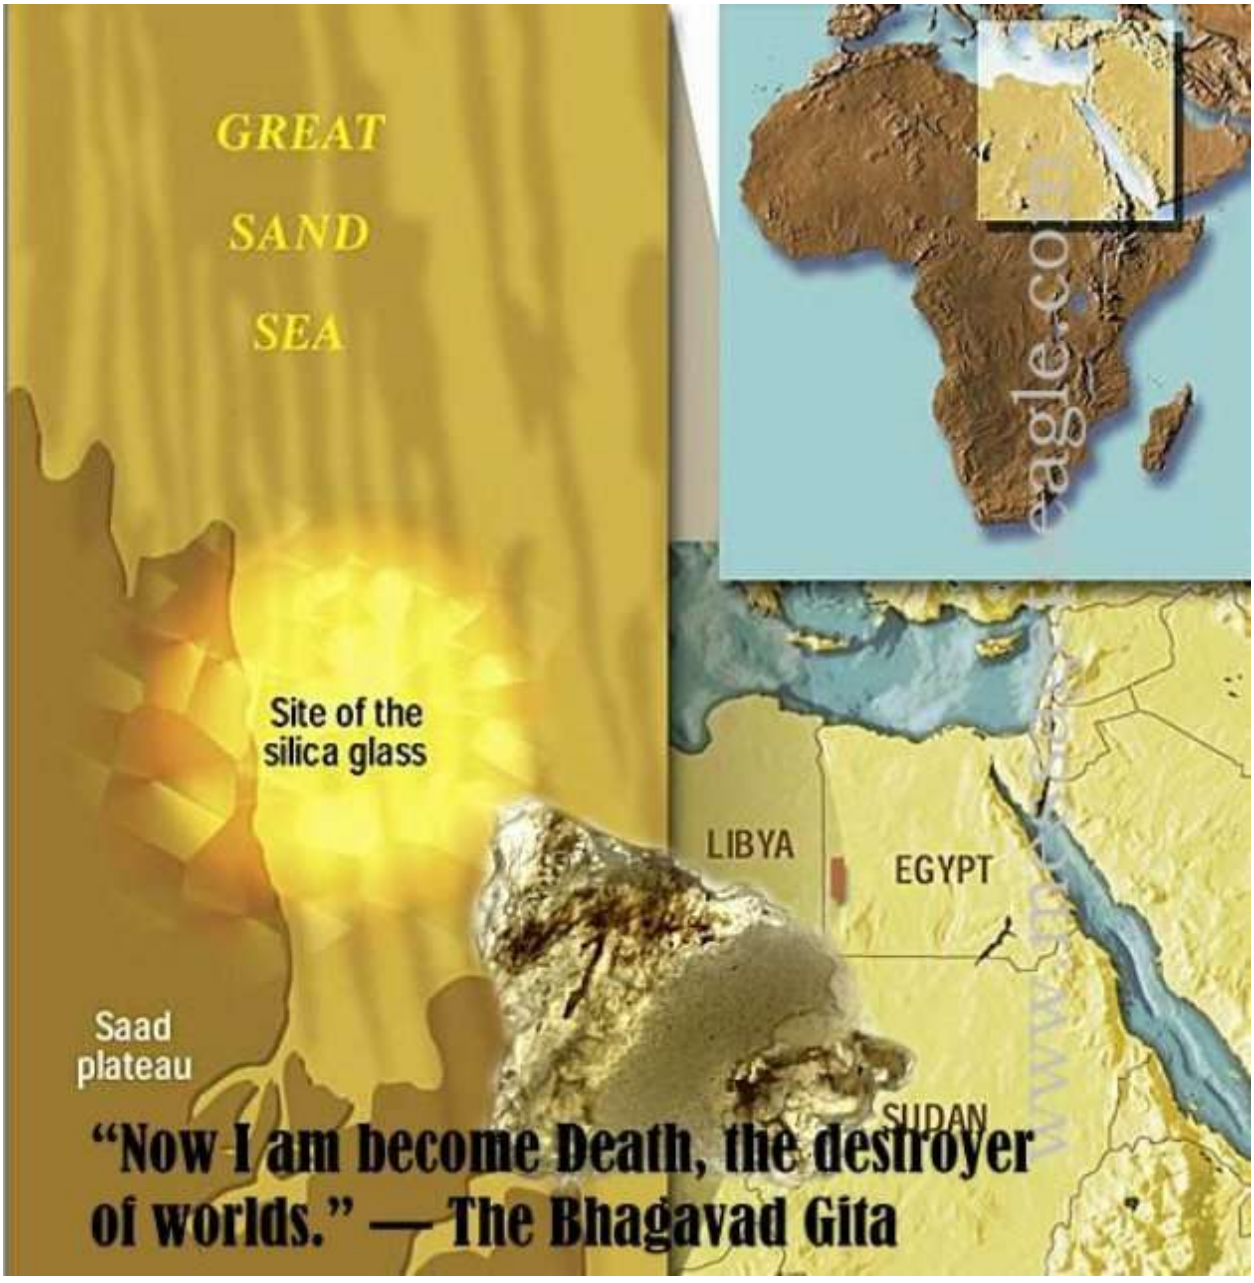
It was made of fused quartz sand with green discoloration, similar in appearance to the layers of vitrified sand left after atomic tests in Nevada in the 1950s.

Five years earlier a thin layer of the same glass, was dug up below the Neolithic, Sumerian and Babylonian strata in southern Iraq.

To the south, the western Arabian desert is covered with black rocks that show evidence of having been subjected to intense radiation. These broken and burned stones are called "harras" that

t.me/ufopediapdf

are strewn over an area of 7,000 square miles.



The results obtained from examined radioactive surface in the area

t.me/ufopediapdf

indicate that layers of fused silica does not originate from the modern nuclear detonations but had been there many thousands of years before Israel became a nuclear power.

When the first atomic bomb exploded in New Mexico, the desert sand turned to fused green glass. This fact, according to the magazine Free World, has given certain archaeologists a turn. They have been digging in the ancient Euphrates Valley and have uncovered a layer of agrarian culture 8,000 years old and a layer of herdsman culture much older and a still older caveman culture.

Recently, they reached another layer of fused green glass.

It is well known that atomic detonations on or above a sandy desert will melt the silicon in the sand and turn the surface of the Earth into a sheet of glass. But if sheets of ancient desert glass can be found in various parts of the world does it mean that atomic

t.me/ufopediapdf

wars were fought in the ancient past or, at the very least, that atomic testing occurred in the dim ages of history?

This is a startling theory, but one that is not lacking in evidence, as such ancient sheets of desert glass are a geological fact. Lightning strikes can sometimes fuse sand, meteorologists contend, but this is always in a distinctive root-like pattern. These strange geological oddities are called fulgurites and manifest as branched tubular forms rather than as flat sheets of fused sand**.** Therefore, lightning is largely ruled out as the cause of such finds by geologists, who prefer to hold onto the theory of a meteor or comet strike as the cause. The problem with this theory is that there is usually no crater associated with these anomalous sheets of glass.

Are we destined to repeat history?

t.me/ufopediapdf

The tales of Atlantis and Lemuris and many other forgotten civilisations are true. Read my book **Continent of Atlantis**. The powers that rule over us do not wish us to remember our illustrious past. They would have us remain dependent upon them. They police us, they govern usm they rule us.

"Ancient Atlantis is the only island in the world that matches the criteria of the island described by Plato," the geographer

t.me/ufopediapdf

Erlingsson stated.

He speculates that Atlantis sank below the waves ca 6,100 B.C.

I propose this greedy and self-serving race destroyed themselves with subsonic weaponry between 15,000 and 10,500 BC.

Their all powerful laser and electromagnetic technology created rapid melting of enormous ice packs in North America that produced Tsunami beyond comprehension. Corresponding volcanic and earthquake activity rocked the once proud continent of Atlantis. The first of these huge islands to sink beneath the waves was named after the god Poseidon.

Erlingsson suggests that the ancient megalithic monuments found throughout Ireland date to ca 3,000 B.C. In a burst of enthusiasm

t.me/ufopediapdf

he then conjectures that these are the palaces and temples described by Plato.

"The hill in which the Atlanteans' maternal ancestor (Cleito) was born resembles Tara, the legendary seat of the high king of Ireland. Similarly Newgrange resembles the palace of their paternal ancestor, Poseidon," Erlingsson stated

I suggest that Atlantis was finally despatched ca 10,500 BC, Lemuria millenia before that.

Unlike the Atlanteans the Lemurians were a highly spiritual and benevolent people. Perhaps they were the elves so many nations narrate in their folklore.

In 1957 Dr. David Zink’s diving team off the Bahamian coast found a stylized marble head, building block cast in a mold and a

t.me/ufopediapdf

stone column that radiated an unknown energy.

Dr. Maxine Asher discovered an ancient undersea city off the coast of Spain.

In 1970 Dr. Ray Brown found submerged pyramids on the sea floor off the Bahamas. The expedition recovered a large crystal clutched in the hands of a stone statue.

t.me/ufopediapdf

In the 1960s Dr Valentine's exploration in Bahama region revealed what has become known as the Bimini road complete with submerged buildings.

More undersea ruins found off the coast of Morocco.

t.me/ufopediapdf

A ruined harbour was discovered by Captain John Alexander near Bimini.

The deep sea diving submarine Aluminaut discovered a well

t.me/ufopediapdf

preserved paved road on the bottom of the Atlantic Ocean, comprised of blacktop magnesium oxide. It runs along the sea floor from Florida to South Carolina.

Off the coast of Spain Captain Reyes Miraga photographed pillars, statues and buildings situated in spacious boulevards with many avenues radiating from them.

Anthony Benik explored **a** massive pyramid with eleven rooms (10,000 feet deep) in the mid Atlantic Ocean.

Off the coast of Cuba the diving team of Leicester Hemingway explored acres of white marble-like ruins.

t.me/ufopediapdf

Why are we still being taught that only primitive man/woman was present in those days?

There is a massive cover up as testified in the book Forbidden Archaeology.

Please investigate: Proceedings of the 2014 Asia-Pacific Regional Conference on Underwater Cultural Heritage. The conference (held in Hawaii) was hosted by the National Marine Sanctuary Foundation and the University of Hawai‘i Marine Option Program. More than 139 participants from 27 countries around the world joined together in Honolulu to discuss common goals in underwater cultural heritage research and preservation.

Speakers:
Dr. James P Delgado - NOAA Office of National Marine Sanctuaries Maritime Heritage Program
Dr. Hans Van Tilburg - APCONF planning committee chair
Dr. Sayan Praicharnjit - archeopen centre Thammasat University, Thailand

The 2014 event

t.me/ufopediapdf

- addressed management and protection strategies of underwater cultural heritage in Asia and the countries of the Indian and Pacific Oceans in the 21st century
- facilitated regional cooperation through the development of academic and governmental networks in the Asia-Pacific region
- provided a forum for discussion of technical and ethical issues related to underwater cultural heritage and underwater archaeology
- freely distributed information across the region and worldwide.

A very important point I must stress here is that scientists and archaeologists are human. Some humans lie. The accepted ‘facts’ regarding the history of the human race are at best flawed but at worst deliberate lies to keep us in ignorance. Remember the Earth

t.me/ufopediapdf

was flat for centuries. Remember the Piltdown Man was the missing link between ape and human for over forty years. So what I shall reveal in this book may indeed be the real truth.

Mohenjo-daro

Mohenjo-daro is located in the Larkana District on the Imdus River in Sindh, Pakistan.

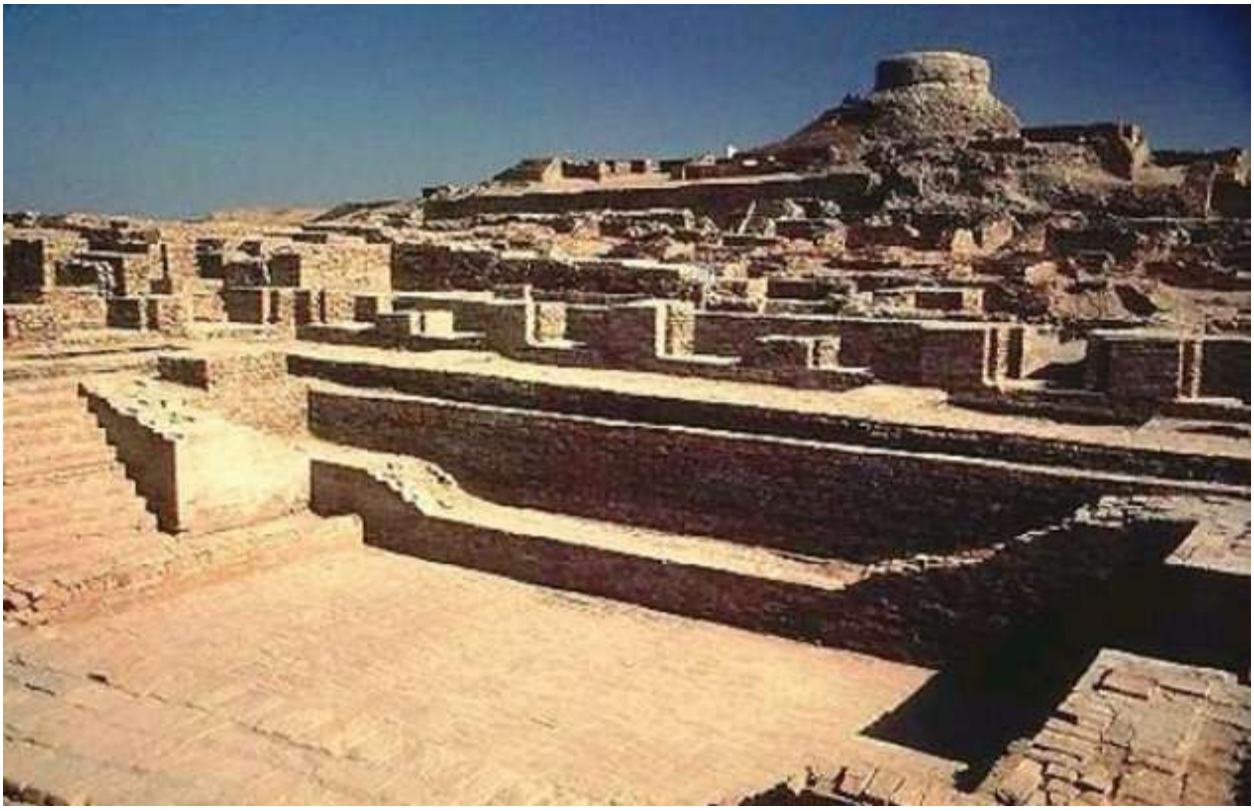
It is a highly specialised settlement that certainly existed in 3000 BC.

As one of the earliest settlements discovered thus far by mainstream archaeologists it rivals those of Sumeria, Egypt and Crete.

t.me/ufopediapdf

Mohenjo-daro was abandoned in the 19th century BCE. It was unearthed in 1921.

This is the earliest known town to boast drainage, bathing, two storey dwellings and running water to individual dwellings.



Mohenjo-daro, communal bath house

t.me/ufopediapdf

Stone seals have been found at Mohenjo-daro depicting a figure standing on its head, and another sitting cross-legged. Yoga was obviously practiced in this fascinating city. Musicians entertained these cultured people. Spectacular wrought iron work, beautiful pottery and fascinating jewellery were discovered here.

The people of Mohenjo-daro were a maritime nation, trading with peoples from Mesopotamia and Arabia. They were Hindus. Daily they read their scriptures. They were reared on the Vedas and the Bhagavad Gita.

Just remember this civilization arose shortly after the melting of the ice caps, the devastation of the Great Flood and the comet that struck North America. There were undoubtedly resulting earthquakes, tsunami and massive volcanic activity followed by choking dust particles in the atmosphere that blocked the warmth of the sun for hundreds of years.

t.me/ufopediapdf

Knowing what we now do regarding this amazing settlement how on earth could humanity recover from the cataclysms that plagued our planet from 15,000 to ca 9,000 BC?

t.me/ufopediapdf

So far only Harappa and Mohenjo daro have been extensively excavated. What other jewels in the Indian and Pakistani crowns await us under the earth?

Both cities have a dreadful tale to tell us regarding their terrible and unexpected destruction.

Medical authorities reported an unnaturally high rate of birth defects and cancer in a three square mile region around Rajasthan, India. When scientists suggested checking for radiation levels they registered so high that the Indian government was forced to cordon off the region.

Archaeologists are deadlocked on a plausible explanation for why there are so many fused lumps of stone at both sites. It is as if an instant flash of tremendous power fused otherwise porous stone

t.me/ufopediapdf

many thousands of years ago.

There must have been a remnant of a highly advanced civilization that predicted the incoming comet, the Great Flood, melting of the ice caps et al. These same scientists and technicians must have saved DNA (as we do today) and used incredible technology to burrow deep under the Earth (as we are doing nowadays).

The Svalbard Global Seed Vault is a secure DNA seed bank situated on the Norwegian island of Spitsbergen in the remote Arctic Svalbard archipelago. This island is 1,300 kilometres from the North Pole.

http://www.bbc.com/future/story/20130724-saving-civilisation-in-one-room

The Human Cloning Foundation is creating a place where anyone can store their DNA for future cloning. Is it possible scientists

t.me/ufopediapdf

preserved human DNA then ‘kick started’ civilization when conditions on Earth became suitable once again for human habitation?

In 2015 a new movie was released entitled Jupiter Ascending. In this movie the Earth is seeded with DNA of many species.

Amongst others the American Phil Schneider revealed that the Shadow Government and Industrial Military Complex of the USA have constructed huge cities several miles under the ground throughout the United States. Connected by high speed anti gravity trains that travel from west to east coast in under an hour these cities are already populated by research scientists and other ‘valuable commodities’.

Grey aliens have been enlisted to share their highly advanced weapons’ technology. In exchange they receive an endless supply of human victims for the purpose of genetic experimentation.

t.me/ufopediapdf

Their aim is to introduce a hybrid grey/human population to our planet.

As I write this DARPA are perfecting their ‘super soldier’ technology. In time a new cyborg army will be at the beck and call of the New World Order. Jason Bourne multiplied by a million.

All of this and much more modern evidence suggests that a highly advanced race (probably human) could just as easily have possessed the same if not more advanced technology.

Ancient observatories (only the stone versions remain today) were trained on the heavens to await the return of the planet Nibiru.

Today there are literally hundreds of highly expensive observatories around the world – all built for the purpose of tracking the binary star system twin to our own. Nibiru shall return

t.me/ufopediapdf

soon. When it does there will once again be a worldwide cataclysm.

For full details read my book **Nibiru Destroyer of Earth.**

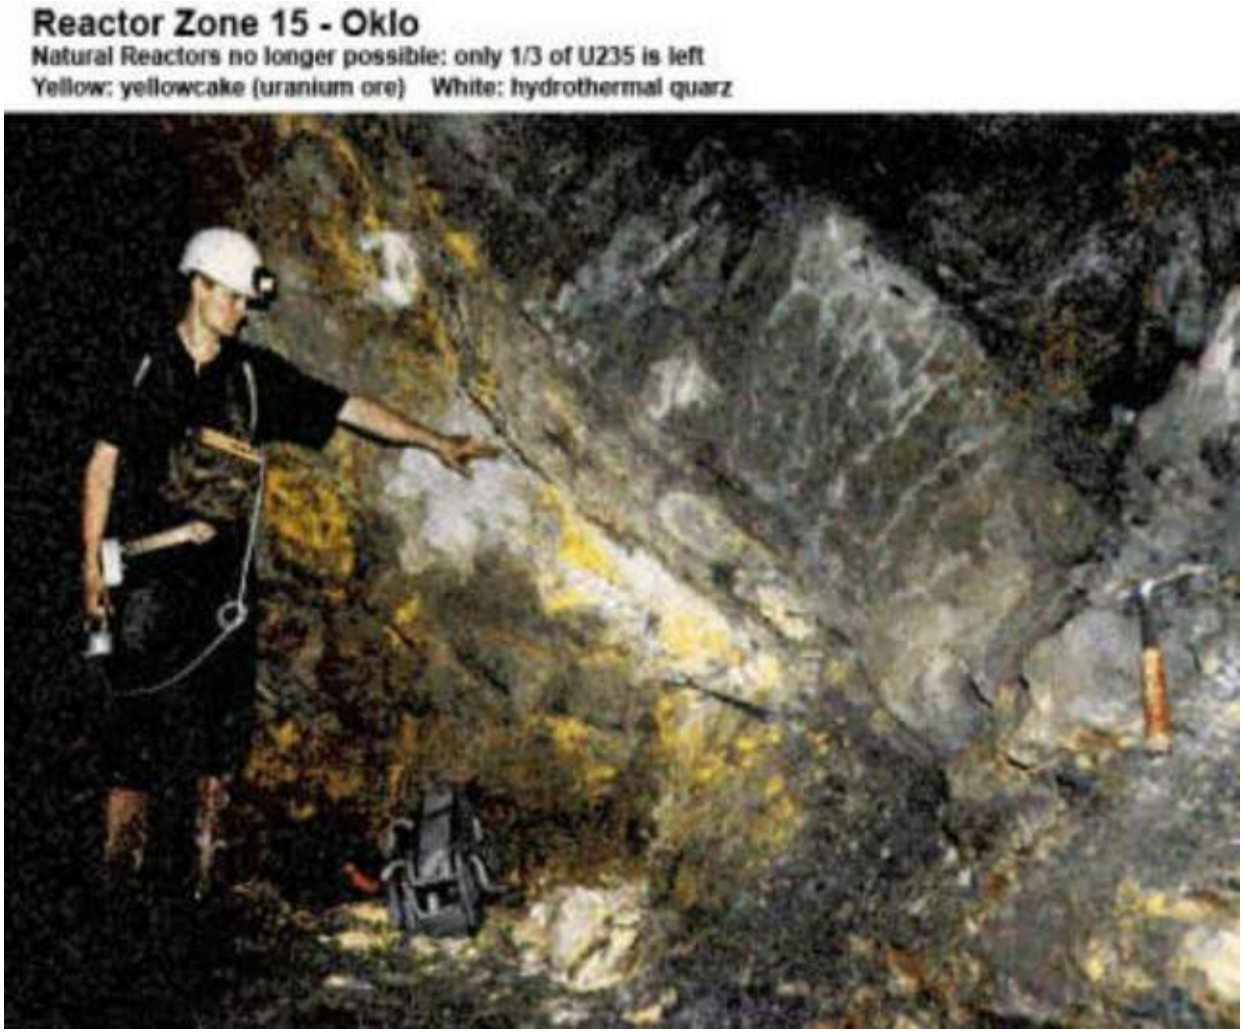
t.me/ufopediapdf

How Old is the Human Race?

In the 1970s in Oklo, Gabon, African miners uncovered the remains of nuclear reactors. When Government officials investigated they called upon specialists from all over the world.

There is no record of a nuclear reactor in this region ever. In 1972, a French company imported some of this uranium ore. The company was irate as the uranium concentration in the ore was pitiful. They complained that the ore was **waste uranium fuel** from a nuclear reactor. Impossible cried the Gabon Government. We have no record of dumped waste nuclear material at this site. Scientists worldwide flocked to the site and it was immediately closed to the public and miners alike.

t.me/ufopediapdf



Reactor Zone 15 - Oklo
Natural Reactors no longer possible: only 1/3 of U235 is left
Yellow: yellowcake (uranium ore) White: hydrothermal quarz

Pictured above is Fossil Reactor 15

This yellowish rock in the photograph above is the Uranium oxide. All the scientists agreed that this uranium had already been used for energy production. Despite this they and everybody else would

t.me/ufopediapdf

not believe their own findings. Why? Because the strata that contained the spent nuclear fuel was **two billion** years old.

Found in six different areas this ‘ancient reactor’ comprises five hundred tons of utilized uranium ore. Its output power was estimated to be approximately one hundred kilowatts. It is estimated that the reactor was in operation for around 500,000 years.

Half a million years of nuclear energy for people living in Africa two billion years ago. You have got to be kidding. So the scientists have abandoned further research and the CIA has ‘put a lid on it’. Wouldn’t like to think some pesky Africans knew more than we do now - two billion years ago.

This discovery raised the intriguing possibility that a

t.me/ufopediapdf

technologically more advanced civilization existed two billion years ago and it had advanced knowledge of nuclear fission.

Of course we would have to rewrite history and explain to common people that perhaps we have mistakenly interpreted the entire course of human evolution.

In the west of Arabia (over a total area of 7000 miles) lie shattered, blackened green stones. For many years this ‘natural occurrence’ passed without investigation. Recently extensive tests were made to determine what caused the fused ‘green glass’ effect. Experts have determined that they are certainly not volcanic in origin. Neither is there evidence of comet or meteorite impacts.

t.me/ufopediapdf

Albion W Hart investigated many desert regions that similarly displayed this ‘green glass’ effect and concomitant blackened boulders. He and his team postulated an incredible theory.

To date mainstream science refuses to acknowledge the veracity of his astonishing finds despite confirming his supposition. It was not until fifty years later that Hart satisfied himself that he had indeed been correct.

t.me/ufopediapdf

“Later on during his lifetime Hart visited the White Sands area after the first atomic explosion and he recognized the same type of silica fusion which he had seen fifty years earlier in the African desert."

Undoubtedly the ‘green glass’ effect was the result of a massive nuclear explosion and the black, shattered stones were remnants of dwellings. Centuries ago the Arabian desert had been a lush and fruitful paradise, to be senselessly destroyed by nuclear warfare.

This fused ‘green glass’ is present in many desert regions including the Gobi Desert, desert regions in Southern Iraq, China and the Mohave Desert and Death Valley in the USA.

Whilst exploring Death Valley in 1850 William Walker discovered

t.me/ufopediapdf

the ruins of an ancient city. Many of the stones that were once buildings were melted and vitrified. Paving blocks and stone houses were severed, showing huge cracks as if seared by some gigantic ‘burst of fire’.

t.me/ufopediapdf

The beautiful temple above is a copy of a city that once floated above the clouds. Testimony of such cities and the flying machines known as vimana is found in the ancient Sanskrit texts.

Stargate

When the U.S. troops invaded Iraq they found no weapons of mass destruction. The war on Iraq was a ploy to control the plentiful oil of that country. During the Gulf War special forces troops were speedily despatched to an otherwise forgotten ancient city abandoned in the desert thousands of years before. For what strategic purposes would crack troops be stationed in the ancient and deserted city of Ur? Why did they spend ten long years there?

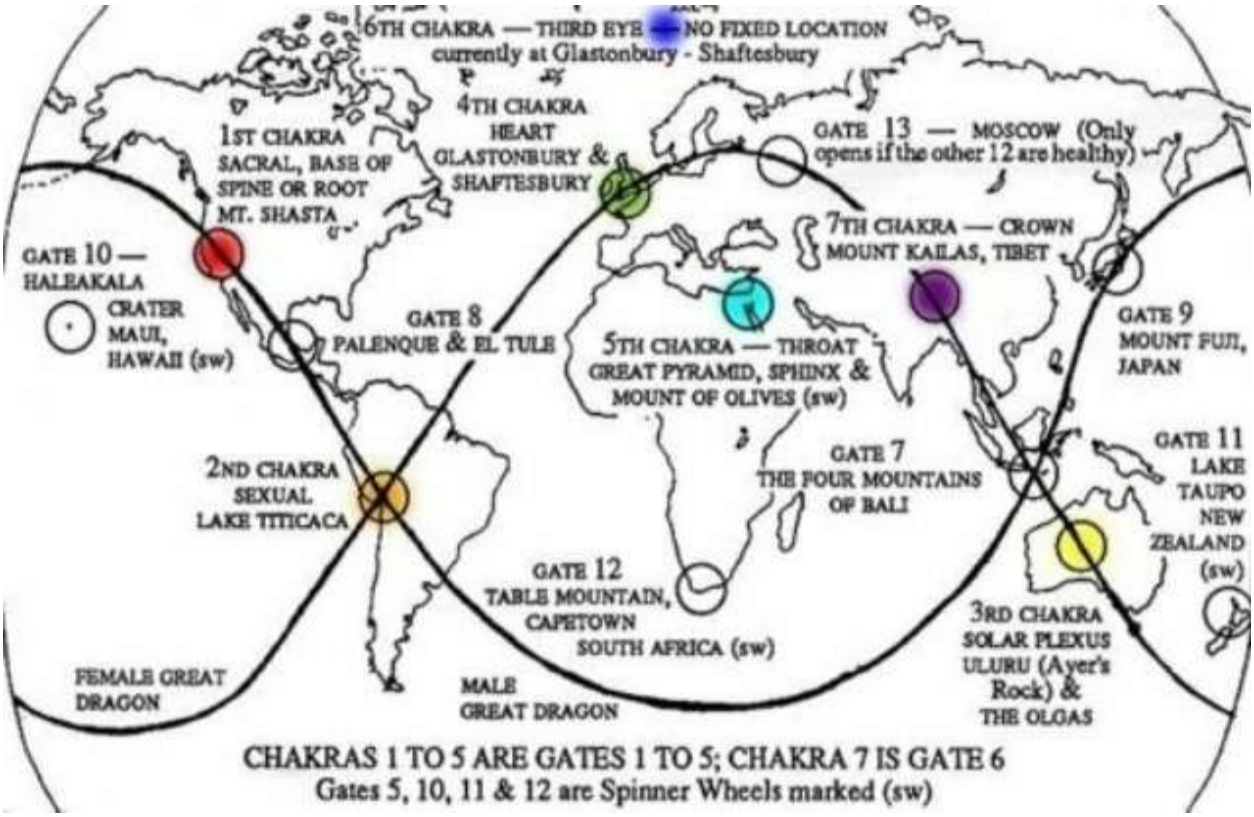
t.me/ufopediapdf

An airfield was established at Ur. Planes constantly flew in and out as the special forces troops guarded the abandoned Ur Ziggurat. Just prior to the invasion of Iraq Saddam Hussein initiated the rebuilding of this Ziggurat. Was this simply for National Heritage? Would thousands of Iraqi citizens traipse out into the desert to marvel at an ancient temple? Or was there a more important reason for rebuilding this Ziggurat?

t.me/ufopediapdf

A reason that brought Saddam himself so many times to this forsaken place. Were there perhaps remnants of some ancient science, possibly a stargate? If Saddam Hussein had been able to operate the stargate he really would have been in possession of a weapon of mass destruction. The entire stargate was carefully packaged then transported to a secret underground base in the USA. American troops were ordered to ransack the museum in Baghdad to search for written instructions on how to operate the stargate.

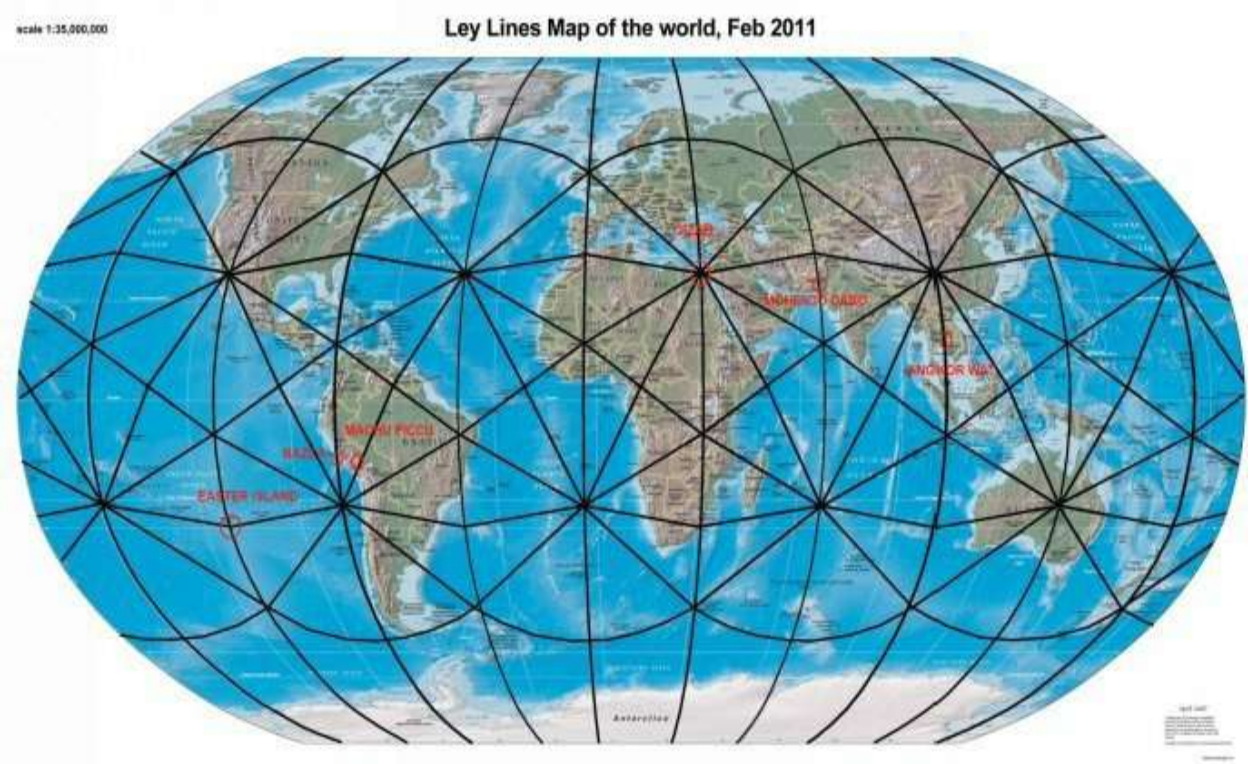
t.me/ufopediapdf



Recently scientists have proven that time travel and travel across vast distances throughout the Universe are technically possible. In plain sight at the CERN facility there is a scientific establishment that is attempting to prove the reality of interstellar travel and travelling in time. Their inspiration is the ancient stargate found in one of our most ancient cities in Mesopotamia at Ur. This is not the only ancient stargate used by the gods.

t.me/ufopediapdf

http://www.bibliotecapleyades.net/exopolitica/esp_exopolitics_A_1.



The pyramids at Giza are a fine example of a stargate.

Underwater cities

Starting with the ancient land of Lemuria (Lemurs and other

t.me/ufopediapdf

exclusive Madagascar animals are remnants of this ancient continent) we can obtain evidence for forgotten civilisations that once thrived above ground but now sadly have sunk to the bottom of the oceans. Lemuria was a massive continent that spanned a distance from the East Coast of Africa (now the Indian Ocean) to the Japanese islands and beyond to Hawaii. Visible mountain tops from Lemuria include the Micronesian Islands and Japanese islands. Below is a sunken city from Lemuria.

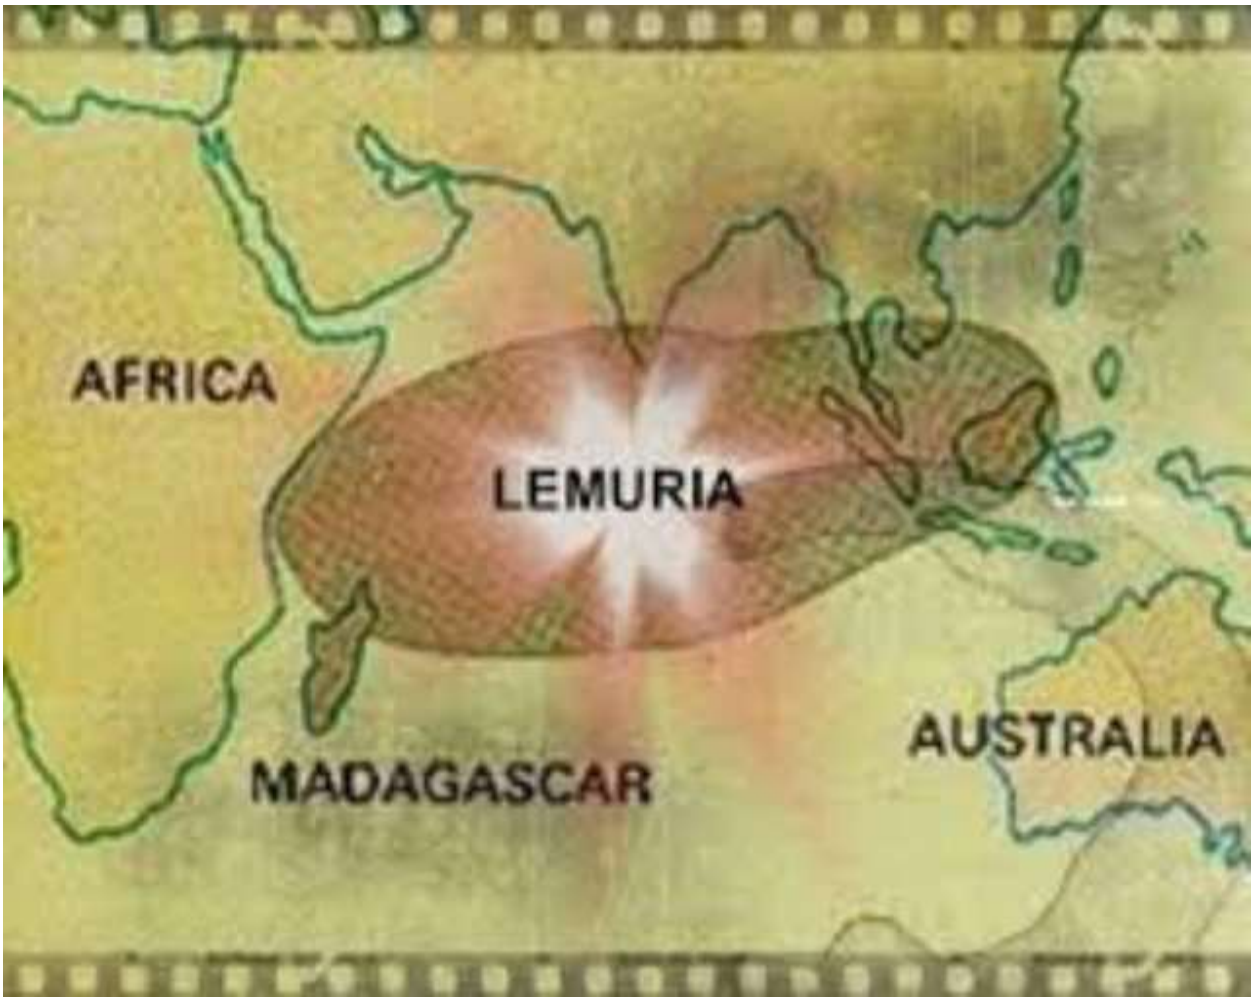
Currently called Nan Madol this underwater city has been mapped by sonar and visited by many deep sea divers. It is an ancient Megalithic city built off the coast of the Federated States of Micronesia (North of Indonesia).

t.me/ufopediapdf

Some of the building walls are over twenty five feet tall and rocks used in their construction weigh in excess of forty tons each. The city was thought to have been built by giant gods, the two brothers Olosopha and Olosipha. The gods used powers of teleportation to

t.me/ufopediapdf

lift the heavy granite blocks into place. Note our gods were visitors from other worlds. We have had many settlers from other Star systems in the past. Lemuria is sketched thus:



An ancient map of the location of Lemuria lies beneath. Lemuria was destroyed before the Great Flood by comets and volcanoes.

t.me/ufopediapdf

This was one of the occasions Nibiru passed close to Earth. See my books on the subject of Nibiru and the Anunnaki (our gods).

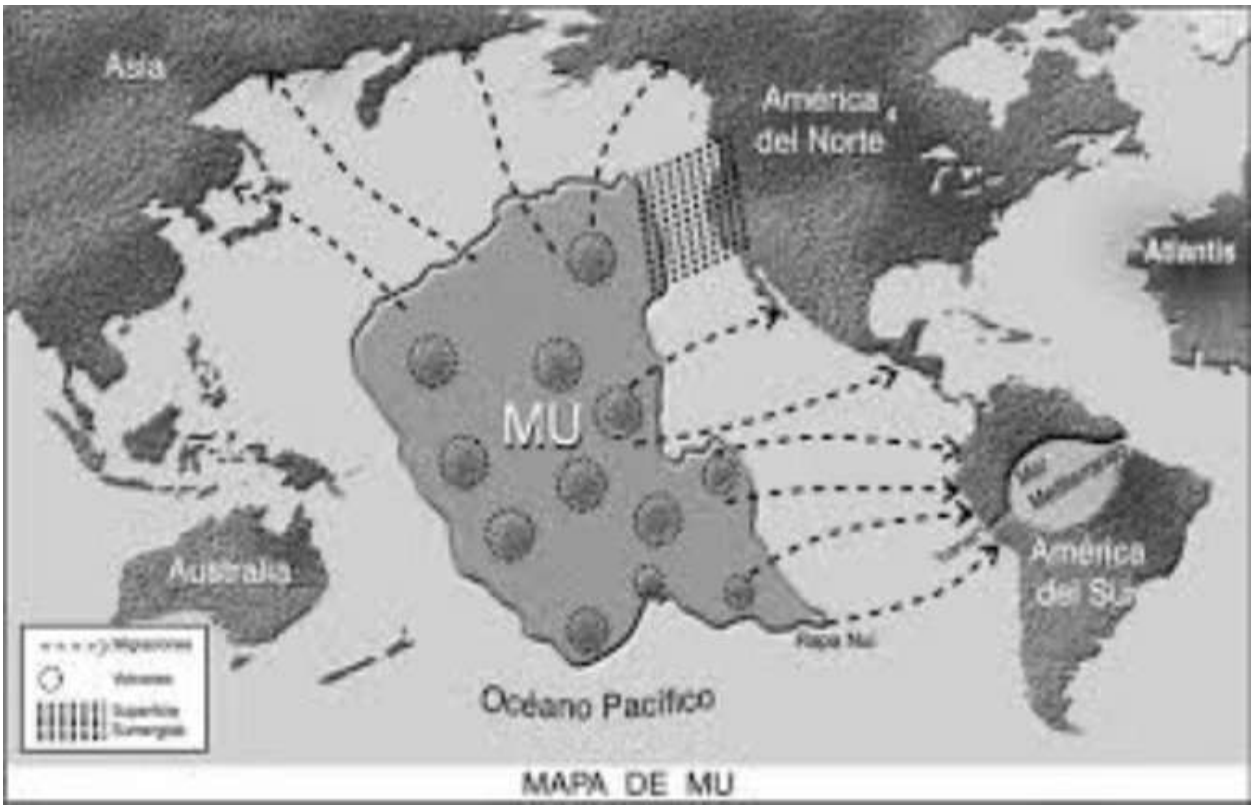
Another ancient continent, Mu occupied much of the Pacific Ocean. Spanning an area from the West coast of North America towards Eastern China and as far South as Australia and New Zealand. It was estimated that a population of around sixty five

t.me/ufopediapdf

million people lived on this continent. Many travelled to and settled on other land masses, especially during the cataclysmic destruction of this continent ca 20,000 BC.

The Maya were survivors from Mu.

It is possible that ancient Egyptians may also have been refugees from this continent.



t.me/ufopediapdf

According to Devaneya Pavanar our world history in brief is as follows:

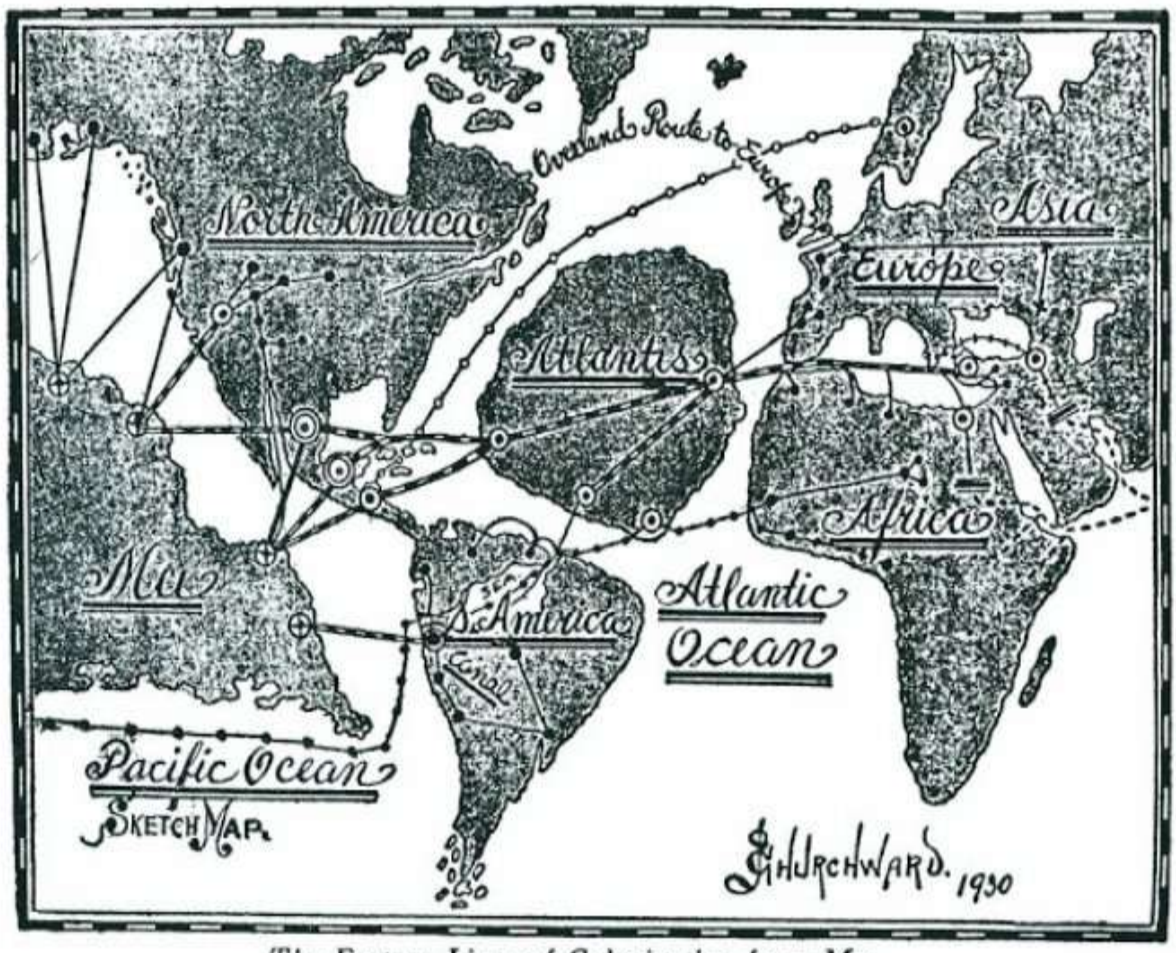
Humans given intelligence from ca.5000,000 BC (mixing of ‘god’/human DNA)

ca 200,000 – 50,000 BC evolution of "the Tamilian or Homo Dravida,
ca. 100,000 to 50,000 BC, growth and development of Tamil,
from 50,000 BC there arose the Kumari Kandam civilisation
ca 20,000 BC destruction of Mu and isolation of Easter Island comprising a lost Tamil culture with an advanced civilisation.

Due to the isolation the peoples of Rapa Nui lost their knowledge and technological achievements over several generations. They built stone faces to welcome their gods who had promised to return some day. See my book on Easter Island.

ca 10,000 BC: Lemuria submerged due to comet and volcanic activity.

t.me/ufopediapdf



The Eastern Lines of Colonization from Mu.

The continent of Atlantis (as you would imagine) occupied a large proportion of the Atlantic Ocean. Atlanteans practiced the art of magic without realising its massive power. It is thought that the Atlanteans grew too greedy, evil and powerful for their own good. Either they destroyed themselves with their own magic or the

t.me/ufopediapdf

nuclear wars between Atlantis and the original Indus civilisation caused the sinking of the continent.

The destruction of an entire continent by ‘magic means’ is not as far fetched as one may imagine. Presently HAARP are experimenting with low frequency sound and magnetic waves to alter weather conditions. These experiments are causing Tsunami, earthquakes and tornado and volcanic activity worldwide. Please read my book **Prison Planet Earth.**

The Toltecs were refugees from Atlantis as perhaps were some ancient Egyptians.

Atlantis was extant after the Great Flood but ceased to be a recognised continent and civilisation ca 5000 BC. Please research for yourself these three ancient civilisations.

t.me/ufopediapdf

During extensive expansion of the Mulifanua ferry line in the ’70s workers discovered thousands of pottery shards on the seabed. Situated at the Northern tip of Upolu (one of the Samoan islands) Mulifanua is principally a ferry station to Savai’i.

t.me/ufopediapdf

These pottery shards were proven to be remnants from a Lapita settlement. Archaeologists sent diving parties to discover more.

The ancient Lapita had been thought mythological as they were inhabitants of a continent known as Lemuria. Peoples of Micronesia and Polynesia are descendents of Lemurians. The pottery has been dated to ca 12000 BC. Further underwater investigation revealed structures and statues.

t.me/ufopediapdf

t.me/ufopediapdf

Discovered 36 metres beneath the Indian Ocean off India's Gulf of Cambay is a fully formed city. See photograph above. It is estimated to be at least 9000 years old.

Until recently a grid pattern could be seen in the Atlantic Ocean off the coast of Portugal. Said to be proof that Atlantis stretched from the West coast of Spain to the East coast of the USA. Google Earth

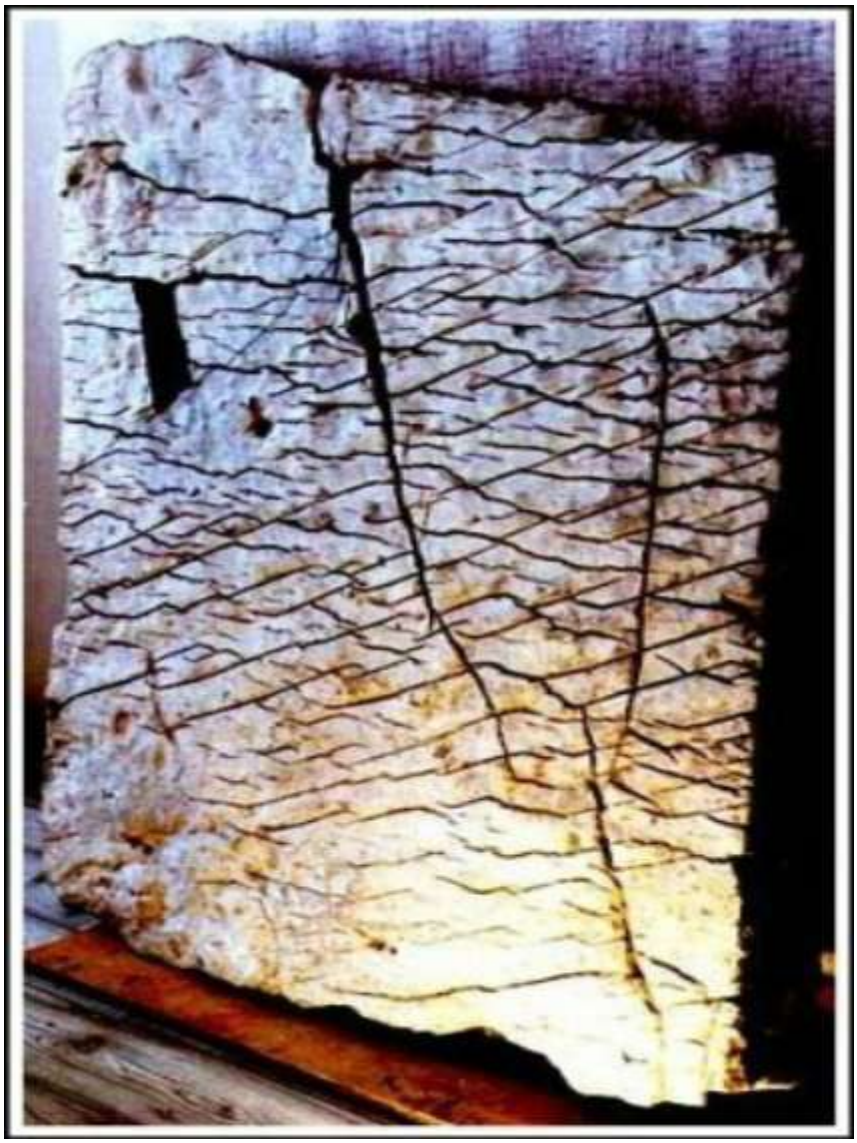
t.me/ufopediapdf

have been ordered to photoshop the grid pattern to give the appearance of nothing unusual. It would be terrible if us mere mortals were to discover the truth. Talking of the truth that must never be imparted the American elite possess the ability to travel through time. I shall not repeat in this book my proven evidence of time travel practiced both by our ancestors and our future selves. The Nazis had almost rediscovered it. Their scientists were then smuggled out to the USA where they finally completed their experiments. Please see my book Travelling Through Time.

Similarly I have no intention of repeating my research here on Ancient Nuclear Wars. You can read all about Vimana and the wars between continents that destroyed Atlantis in the Bhagavad Gita or my books entitled Atlantis and Ancient Nuclear Wars. The truth has been withheld from us. Those with an enquiring mind like myself should research without prejudice our ancient past. I promise you it shall be both frightening and exciting.

t.me/ufopediapdf

The Map of the Creator



In 1999 a young man named Vladimir Krainov presented a large piece of stone slab to Professor Alexander Chuvyrov at Bashkir

t.me/ufopediapdf

State University in Ufa, Bashkortostan, Russia. It had been lying outside his house for years. Upon examination the Professor stated that the stone was a most remarkable discovery.

It contained hieroglyphs that were actually a map of the entire region of the Urals with precise dimensions.

The stone depicted accurate representations of civil engineering work, irrigation systems and dams. Yet the stone itself was over 100 million years old. Also depicted were the Belya, Ufimka and Sutolka rivers. As the stone was fragmented Russian scholars believe it may be a tiny piece of a much larger slab that may perhaps be a map of the entire planet.

Further studies revealed it to be a piece of a larger artefact, perhaps a world map.

t.me/ufopediapdf

X-ray photographs confirmed the slab was of artificial origin and had been made with precision. The map was created by aerial navigation but who could have taken to the skies so long ago?

Time Travel and Interstellar Travel

The ancients were able to travel through time and space. They were time travellers using wormhole technology and stargates. For full details read my book **Time Travel.**

.

Technically it is possible to travel through time by creating and entering a wormhole then exiting through the other side. Some 'alien' spacecraft appear to do just this (read my **UFO Chronicles**).

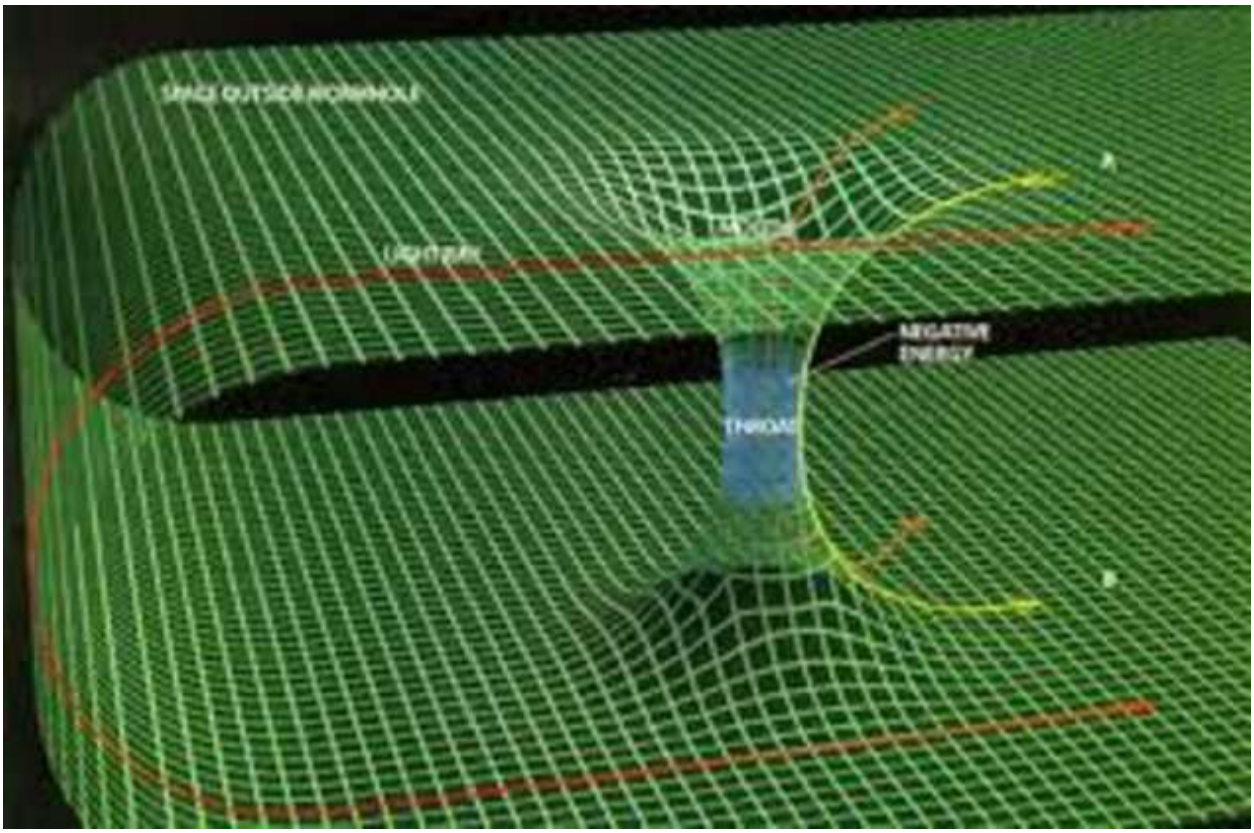
In the diagram below a specific type of wormhole is created and

t.me/ufopediapdf

maintained.

Imagine we were able to fold spacetime upon itself, essentially placing two points (normally millions of miles or perhaps thousands of light years away from each other) together (this is easily demonstrated by folding two diagonally opposite edges of a piece of paper together). Instead of taking many light years to travel from one point to the other travel would be theoretically instantaneous. In fact mathematics proves that it is possible to return to a point BEFORE leaving that locale. This is termed a time loop and scientists agree it is fundamentally not only possible but occurs in certain types of black holes.

t.me/ufopediapdf



Without bending spacetime travel from point A to point B will take an inordinate amount of time. By folding spacetime (like the aforementioned paper) the journey will be infinitely shorter, perhaps instantaneous. Mathematically this is provable. The Large Hadron Collider in Geneva has already demonstrated the existence of the Higgs particle.

t.me/ufopediapdf

Why then have scientists received permission to build an even bigger LHC around Geneva? Just what do they hope to achieve by sending subatomic particles at even greater speed over a greater distance?

Accept that our scientists now believe in the prospect of travel through time. In fact the Black Ops US Military budget has paid for several Stargates and time travel apparatus. This is why Area 51 is so closely guarded. With this technology they have set up bases on Mars. Read my book Mars and Moon Bases. Have they opened Pandoro's Box?

Are the same gods here in our skies today? With their ability to time travel perhaps they have seen the future we are fast approaching with our barbaric ways. Are they here to warn us that the lives of all on planet Earth and the planet itself are in peril?

t.me/ufopediapdf

For startling facts about a colony on Mars, our mysterious moon bases and the demonic planet Saturn read my book **Mars Colony and Moon Bases.**

Gold and Iron Nails from Our Ancient Past

Chains in Coal: In 1844 workmen quarrying stone near the River Tweed below Rutherford, Scotland, discovered a piece of gold thread embedded in the rock eight feet beneath the ground. A small piece of the thread was sent to the offices of the Kelso Chronicle.

(The Times, London, **June 22, 1844**)

47 years later Mrs. S. W. Culp, of Morrisonville, Illinois, was breaking coal to fill her scuttle. She spotted a gold chain in the midst of the coal. The two ends of the chain were firmly embedded in two separate pieces of coal that were a single lump

t.me/ufopediapdf

only moments before.

(The Morrosonville Times, **June 11, 1891**)

Iron Nails: In 1851, Hiram de Witt, of Springfield, Massachusetts, accidentally dropped a fist sized piece of gold-bearing quartz that he had brought back from California. The rock broke and inside it de Witt found a 2" cut iron nail, slightly corroded. "It was entirely straight and had a perfect head," reported The Times of London.

(The Times, London, **December 24, 1851**)

At a meeting of the British Association for the Advancement of Science in 1845. Sir David Brewster reported:

"A rusted nail was found partially embedded in a block of stone taken from Kingoodie quarry in Scotland. It was thought to be

t.me/ufopediapdf

thousands of years old.

(Charles Fort, The Complete Books of Charles Fort, pg. 133)

An "iron instrument" resembling the bit of a coal drill was found inside a lump of coal taken from an excavation in Scotland in 1852, The surface of the coal was unbroken. It showed no signs of drilling or any present or former opening by which the drill might have passed into it's interior. Again it would have been created thousands of years before.

France: Tools in Rock

Between 1786 and 1788 there was extensive quarrying near the city of Aixen-Provence, France. The reason was to provide limestone for the rebuilding of the Palace of Justice.

t.me/ufopediapdf

After quarrying eleven layers of rock, reaching to a depth of some 15 metres they discovered stone pillars and fragments of previously worked rock.

Upon further excavation the workmen began to discover coins, petrified wooden handles of hammers and other petrified wooden tools.

A three metre long wooden board was then unearthed.It proved to be a quarryman’s board similar to that used by the current workers.

How a stonemason's yard, equipped with the kind of tools used in France in the late 18th century, had come to be buried 50 feet deep under a layer of sand and limestone 300 million years old is a question even more vexing today than at the time of the original discovery. For we now know, thanks to advances in geological and anthropological dating, that such a thing is absolutely impossible.

t.me/ufopediapdf

And yet it does seem to have occurred.

(The American Journal of Science and Arts, 1:145-46, **1820**)

Is it possible that humans were present on Earth as a highly advanced civilisation, perhaps many times and many millennia ago?

Perhaps cataclysmic events such as Ice Ages and especially the Great Flood that engulfed Mesopotamia also eradicated precious, even spiritual civilisations, such as Atlantis. Many scholars and investigators are now agreed that a wonderful civilisation did indeed exist somewhere between Bermuda and the west coast of Europe.

When the continent of Atlantis was removed from the physical realm around 10000 BC residents fled in their powerful ships to

t.me/ufopediapdf

the Americas, Africa and down the calm waters of the Mediterranean. Some settled in the high mountains of present day Spain. Their descendents are said to be the Basques. Others settled in the Fairy Kingdom of Eire and a fabled island called Hy Brazil.

t.me/ufopediapdf

Atlanteans created the fabulous Minoan civilsation. King Minos of Crete was a direct descendent of those who lived on Atlantis. When history repeated itself and the Minoan civilisation itself was threatened by a volcanic eruption, on the island of Santorini, the inhabitants of Crete fled to what is now Turkey. They founded the kingdom of Troy.

The legends involving the Labours of Heracles and all ancient Greek mythology is testimony to the existence of Atlantis.

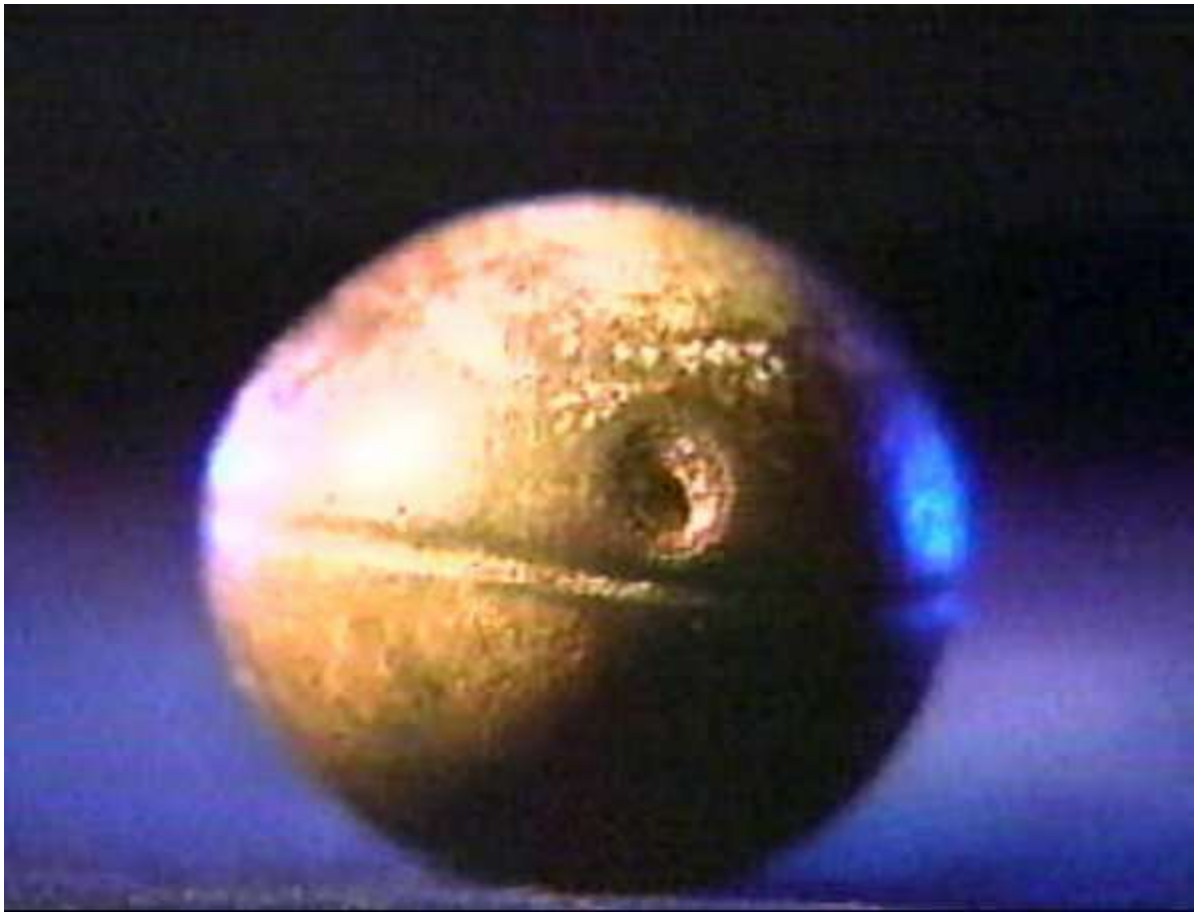
The Hesperides were daughters of Atlas. Atlas himself was a famous Atlantean – holder (not literally) of all the planet. His father was the 'god' Poseidon. The capital of Atlantis was Poseid. I have detailed this in my book **Continent of Atlantis.**

The Klerksdorp Spheres

t.me/ufopediapdf

Discovered by Wonderstone Silver miners in South Africa are literally hundreds of metal spheres. Some are blue with flecks of white, others are virtually hollow with a spongy interior.They may be viewed in the Klerksdorp Museum. Scientifically they are dated at around an astonishing 4,500 million years old.

t.me/ufopediapdf



Quote from a NASA scientist:

'The existence of the spheres came to my attention in 1977 while removing endangered rock engravings from the site where pyrophyllite or "wonderstone" (as it is commonly known in the

t.me/ufopediapdf

region) is mined on the farm Gestoptefontein (plugged fountain) near the little village of Ottosdal about 110 km from Klerksdorp in South Africa's Northwest Province.

I was intrigued by the form of the spheres, grooves around the middle and the fact that they are as hard as steel, while the material (pyrophyllite) in which they are found, is as soft as limestone with a count of only 3 on the Mohr scale. As you probably know pyrophyllite (Al2 Si4 O10OH2) is a secondary mineral and the deposits were formed by a process of sedimentation. On Gestoptefontein volcanic activity was responsible for the forming of outcrops varying in height from about 10 to 100 meters. The smooth and relatively soft surface of the slopes was ideal for the prehistoric dwellers (San) to make their engravings of animal and abstract designs.

On Gestoptefontein these outcrops were "sawn" into huge pieces

t.me/ufopediapdf

by means of twisted steel cables running zig-zag on pulleys for several kilometres. These blocks were then sawn by the same method into more manageable pieces of about 500 x 500 mm. On occasion the "sawing cable" got stuck on one of the metal spheres embedded in the pyrophyllite.

They vary in size from 30 – 50 mm in diameter and have perfectly concentric grooves round the center as if they were moulded. Inside the hard "shell" some have a spongy substance, while in others it resembles charcoal. When only partly embedded so that they can be seen on the surface they are not all spheres but some are also oblong in form.

The Dorchester Pot

t.me/ufopediapdf

Quote from The June issue of Scientific American (Vol 7, **1851**. p.298), reports that a 'metallic vase' had been dynamited out of solid rock on Meeting Hill in Dorchester, Massachusetts. The story said, 'on putting the two parts together it formed a bell-shaped vessel, 4 ½ inches high, 6 ½ inches at the base, 2 ½ inches at the top and about an eighth of an inch in thickness".

The body of the vessel resembles zinc in colour, or a composition metal in which there is a considerable portion of silver. The vessel is chased, carved and inlaid exquisitely. This particular discovery illustrates the way mistakes can be made. There is little doubt that the discovery is the remains of a contemporary 'candlestick' similar to the one on the right. The following finds are mind blowing. They indicate that humans may very well have been around in the

t.me/ufopediapdf

time of the dinosaurs.

The Cambodian 'Stegosaurus'.

The carving above may be viewed in the temple of Ta Prohm, Cambodia
(Dated 11th Century AD).

How could the ancients know of the existence of dinosaurs if they

t.me/ufopediapdf

had vanished from the Earth millions of years ago? If this is indeed a stegasaurous then we can postulate that at least ancient Cambodians from Angkor Wat may have the ability to travel through time. Please read my book **Aliens, Nazis and Hollow Earth** for details.

Fossilised Human Footprints

t.me/ufopediapdf

The Lucy footprint was discovered in Laetoli by Mary Leaky. This human footprint is dated to ca 3.7 million years ago. Yet fossilised human footprints have been uncovered that date even farther back in time

In 1983 Professor Amanniyazov (Director of Turkmenia's Institute of Geology) revealed to the scientific community photographic

t.me/ufopediapdf

evidence of what may be the footprints of a humanoid, found in Mesozoic strata. Dr. Amanniqazov was shocked beyond belief to find a human-like footprint mingled with those of dinosaurs. “Incredibly this footprint is on the same plateau where there are dinosaur tracks. We can say the age of this footprint is at least 150 million years old. Whoever left the footprint was taller than we are”.

We know that humans appeared much later than dinosaurs (well we think we know). So was this the footprint of a humanoid extraterrestrial or perhaps a traveller through time?

This photo is taken from the Zapata track (in Permian limestone) in New Mexico. In 1987

t.me/ufopediapdf

paleontologist Jerry MacDonald discovered a variety of beautifully preserved fossil footprints.

There are literally thousands of human footprints on the Robledo Mountain along with those of other animals. The Permian strata has been dated from 290 to 248 million years ago.

On one track a three-toed creature apparently took a few steps, then disappeared--as though it flew away.

'We don't know of any three-toed animals in the Permian,' MacDonald said. ‘And there aren't supposed to be any birds.’

There are some tracks where creatures appear to be walking on their hind legs, others that appear simian. There are what appear to be bear tracks, yet mammals evolved long after the Permian

t.me/ufopediapdf

Period.

The Guadeloupe Woman

Once found in the British Museum is a female skeleton discovered in Guadelope in 1812. It is that of a tiny woman discovered perfectly preserved in limestone 28 million years old. In 1881, the exhibit was quietly taken down to the basement and remains there to this day.

The Acambaro Figurines

t.me/ufopediapdf

t.me/ufopediapdf

In 1944 the German Waldemar Julsrud discovered several clay figurines near the banks of Cerro del Toro in Acámbaro, Guanjato, Mexico. There were some 32,000 pieces. All the figurines are of dinosaurs and creatures of unknown origin. They were dated at around 4000 BC.

t.me/ufopediapdf

The archeologist and the regional director of the Acámbaro National Museum of Archeology enlisted various authorities to testify to the authenticity of the figures. They included the eminent paleontologist based at the EUA Natural History Museum, naturalist Dr. Gaylord Simpson; Ivan T. Sanderson; and attorney/criminologist Erle Gardner.

t.me/ufopediapdf

Looks too much like a three pin electric plug yet dated hundreds of thousands of years ago

The Aluminum Wedge of Aiud

In Romania in 1974 workers unearthed a block of metal, similar in appearance to the head of a hammer. The item comprises 89%

t.me/ufopediapdf

aluminum alloy yet pure aluminum was not readily obtainable until the middle of the 19th century. As Aluminium does not occur naturally in nature but must be mined then purified the item must have been manufactured. This odd object is at least 20,000 years old as it was discovered in a layer of rock along with two mastodon bones.

Some researchers speculate that the object was originally a piece of a flying machine, perhaps a Vimana. They presuppose it had an extraterrestrial origin.

Other researchers claim it is part of a machine hammer. Who would have the knowledge and possess the necessary methods of tool-making 20000 years ago?

Temple of the Cow

t.me/ufopediapdf

The bright gold carving above is visible on the wall of the Temple of Hathor. It clearly shows an electric tube of some kind – perhaps a cathode ray tube. It dates to around 3000 BC or possibly much earlier. Seems history is not quite what we were taught.

t.me/ufopediapdf

Hathor was an ancient Egyptian Goddess. She is akin to the Sumerian Goddess Ninhursag. In her youth she was not a real beauty and certainly in her old age she was nicknamed the Cow. She was the God Enki's lover. Enki was granted rulership of the seas and goldmines on Earth by his father Anu. They were our gods, originating from Nibiru.

Perhaps the Temple of Hathor in Dendera provided power or it may have been a research laboratory. Hathor was Enki's lover, known as Ninhursag to the Sumerians. For full details please read my books on the Fallen Angels, Anunnaki, our ancient masters and ancient nuclear wars.

t.me/ufopediapdf

These were our original gods and we lived with them for hundreds of thousands of years.

Enki and Ninhursag (as scientists) altered the DNA of primitive humans to provide them with greater intelligence. This pleased Enki's brother, Enlil who proceeded to utilise these savages as servants and especially slaves in the gold mines. These were our ancestors.

t.me/ufopediapdf

Krassa and Habeck describe the Temple in their book "Light for the Pharaoh":

t.me/ufopediapdf

The walls are decorated with human figures next to bulb-like objects reminiscent of oversized light bulbs. Inside these "bulbs" there are snakes in wavy lines. The snakes' pointed tails issue from a lotus flower, which, without much imagination, can be interpreted as the socket of the bulb. Something similar to a wire leads to a small box on which the air god is kneeling. Adjacent to it stands a two-armed djed pillar as a symbol of power, which is connected to the snake. Also remarkable is the baboon-like demon holding two knives in his hands, which are interpreted as a protective and defensive power.

t.me/ufopediapdf

Translation of the text on the south wall reads:

Resomtus is alive with gloss in the sky (and) lives at the day of the New Year celebration.

He lights up in its house in the night of the child in his nest, by donating the light to the country from the birth bricks. The sky is jubilant, the earth is pleased and the God chapels is glad, when he

t.me/ufopediapdf

appears in his chamber in his procession barge at his beautiful celebration of the New Year. The God with his disk has come to see him.

Nehebkau gives him reputation, and the goddess with her disk, with godly body, rejuvenates him in his sanctuary.

Tchnt tpjt jnr is content because of her majesty. She praises Re because of him with praise for his Ka, with wine from schfjt and meat bits on the altar before him.

The "land-of-Atum" is prepared with his most distinguished plan, as Hu and Sia are subordinated to him. He may protect the son of Re, forever.

Disk refers to the flying craft the gods travelled in (much like our private planes today). Ka is breath or energy. Have our historians related the real truth about our ancestors or is the truth much more

t.me/ufopediapdf

detailed and exciting? There were several different alien species occupying land upon our planet in the past. They came for many reasons, including gold. Some trained us, some used us as slaves or cannon fodder during epic battles.

The ancient Indus civilisation took part in a number of nuclear wars with such civilisations as the Atlanteans. Please read the Bhagavad Gita and Mahabarata and my book Ancient Nuclear War.

t.me/ufopediapdf

What we see is without question a form of bulb, with two arms reaching into it near its thick end, and a sort of cable at the other end, from where a snake is leaping out to touch the arms on the other side. The whole ensemble really looks like an electric lamp.

t.me/ufopediapdf

Another picture from the crypts of Dendera:
Eastern relief on south wall

t.me/ufopediapdf

Soot in burial chamber

This chamber is completely above ground, built by Snofru, father of the builder of the Great Pyramid, Khufu. The soot seems to be millimetres thick, and if one enters the pyramid's passages the ceiling reveals a quantity of soot, produced from years of burning oil and candles. However, there is no soot in the Temple of Hathor. This indicates perhaps it was illuminated by electricity, certainly

t.me/ufopediapdf

not oil or candles.

t.me/ufopediapdf

Harsamtawy, son of Hathor, here takes the form of a serpent (he also appears as a hawk). It was "in this form," wrote famous archaeologist Wallis Budge, that

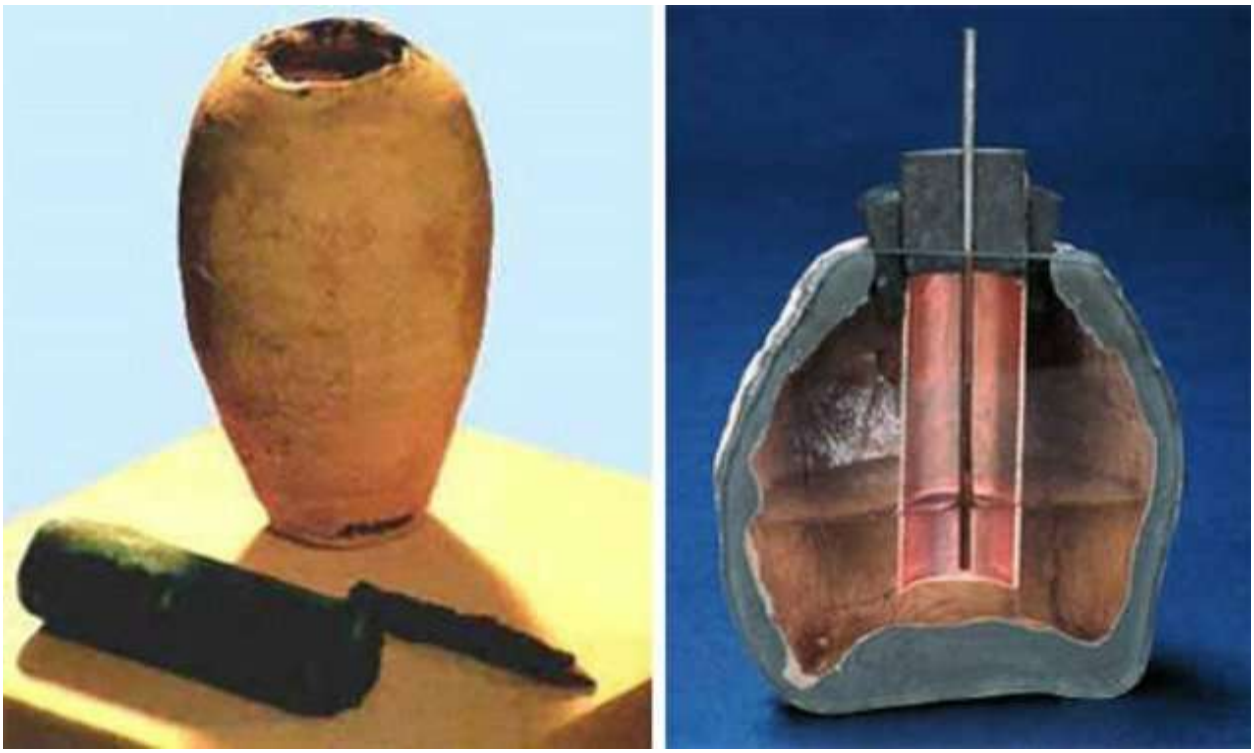
"Horus was believed to have sprung into existence out of a lotus

t.me/ufopediapdf

flower which blossomed in the heavenly abyss of Nu at dawn at the beginning of the year."

Baghdad Batteries

t.me/ufopediapdf



What need would ancient people have for batteries when electronics did not yet exist? Found outside Baghdad, Iraq in 1936, the Baghdad Battery comprises an iron rod inside a small clay jar. The rod is suspended in a copper cylinder which is soldered shut and sealed with asphalt. Replicas that have been made since then produce small amounts of electricity.

Above a Norse coin dating from the early 11th century was found among Native American ruins in Maine in 1957. This may be proof of a Viking settlement much further south than Vikings had supposedly settled. Previously they were considered to have remained in Newfoundland.

Guatemalan Stone Head

In the 1930s, explorers found an enormous eloquently made stone statue in the middle of a Guatemalan jungle. The face carved in

t.me/ufopediapdf

the stone didn't resemble the facial features of the Maya or any of the other people known to have populated the lands.

In fact, its elongated cranium and fine features didn't seem to belong to any known South American tribe.

Researchers claim that the statue's unique features depict a member of an ancient alien civilization that was far more advanced than any of the pre-Hispanic races of America we know about.

Ancient flying machines

Discovered in Columbia these gold flying craft were originally thought to be 'birds or bees' as we hadn't invented the aeroplane at that time. Only know can we appreciate what they are. They date to ca 8000 BC.

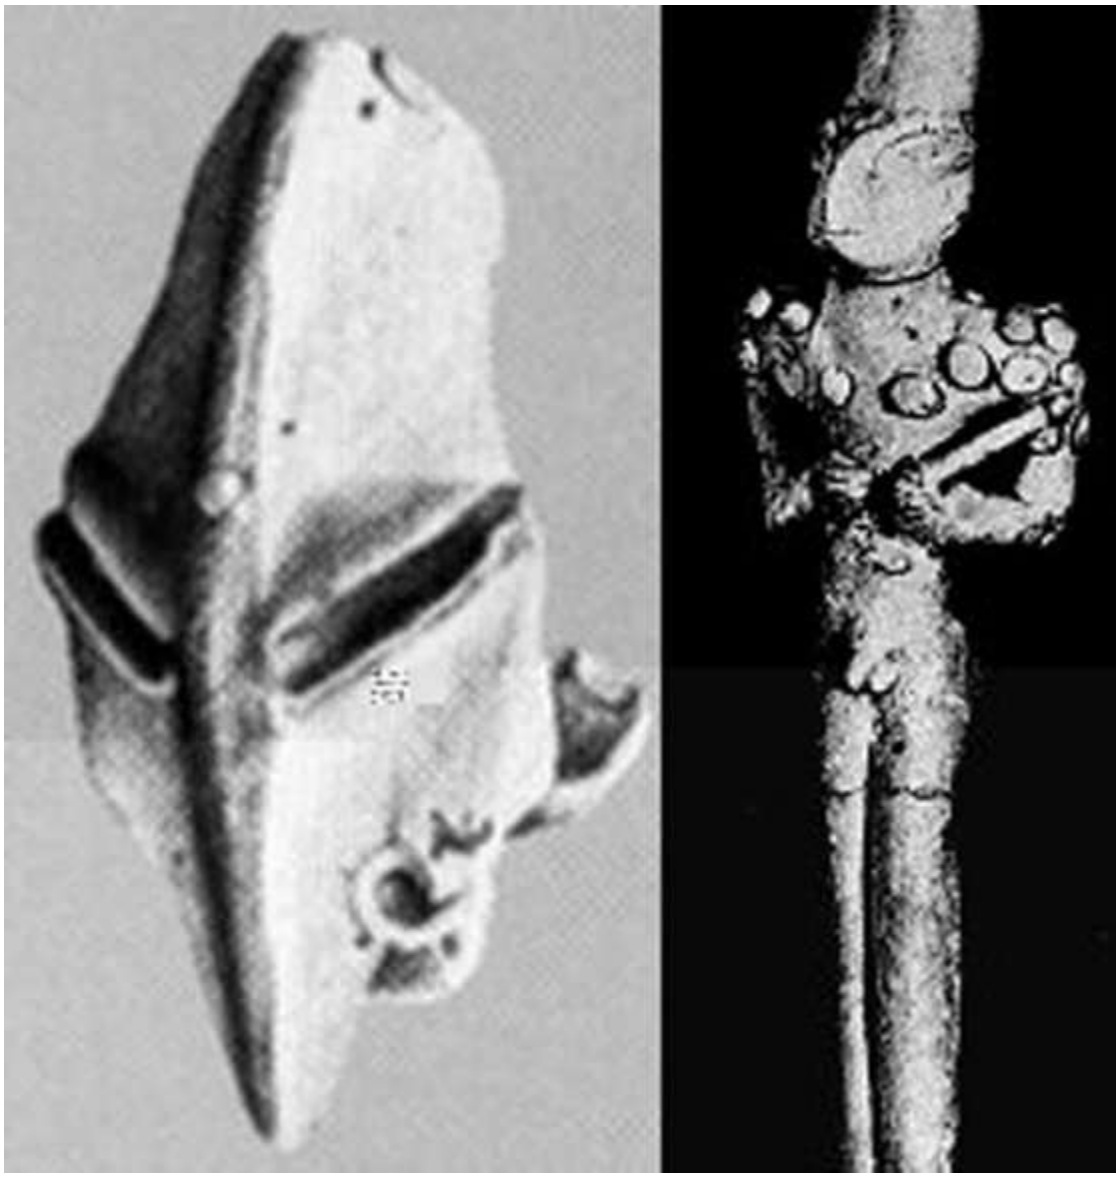
Ubaid Lizard People

t.me/ufopediapdf



At the Al Ubaid archeological site on Iraq have been found numerous objects from a pre-Sumerian time called the Ubaid period (5900–4000 B.C.).

t.me/ufopediapdf

However, some of these objects are quite disturbing. A number of Ubaid statues depict strange lizard-like human figures in unique, unceremonious poses that seem to indicate they were worshipped as gods but they resemble lizards.

Is this the face of an Anunnaki or Reptoid? Reptoids were said to have been defeated by humans who revolted after thousands of years in slavery. Survivors fled deep under the Earth. Tales of a hollow Earth and flying saucers emitting from holes at both poles abound. Please read my books Humans are Aliens and **Arrival of the Anunnaki.**

Talking of aliens UFOs and their occupants are nothing new. We have been spotting flying saucers and ETs for thousands of years.

In 2012 the Mexican government released a number of Mayan artefacts that were part of a State secret. This coincides with the Mexican Governments official acknowledgement of ETs and UFOs.

t.me/ufopediapdf

The artefacts had been discovered in a pyramid buried under another pyramid in Calakmul (site of one of the most populated ancient Mayan cities). A government-sanctioned documentary by Raul Julia-Levy (the son of famous actor Raul Julia) and financier Elisabeth Thieriot (ex-wife of a former publisher of the San Francisco Chronicle) featured a number of these artefacts which clearly depict UFOs and alien visitors.

The South African Michael Tellinger has exhaustively researched thousands of circular and irregular shaped stone structures that are thousands of years old. They were classified as Kraal by previous archaeologists and largely ignored until Tellinger engaged a team of experts to examine some of them more closely. What they have discovered is beyond belief

t.me/ufopediapdf

- From the guidestone the other stones are placed specifically to form the Golden Ratio
- GPS fails within the Kraals
- Time precisely to the minute is measured within Adam's Calendar using the sun
- Kraals are energy transformers and emit huge amounts of free energy skyward
- Temperatures inside the Kraals reach 80 degrees C
- Adam's Pyramids and the Giza pyramids are emitting massive energy to this day
- Both are on 31 deg longitude
- All Kraals emit high frequencies eg 1700 MHz
- They may operate as a form of computer containing 375GHz of 'storage'

All things considered I believe the ancients have left behind tantalising clues to just how advanced their civilisations were.
